RE: Official Zoning Map Amendment Application #2019I-00077

Staff Report and Recommendation

Based on the criteria for review in the Denver Zoning Code, Staff recommends approval for Application #2019I-00077.

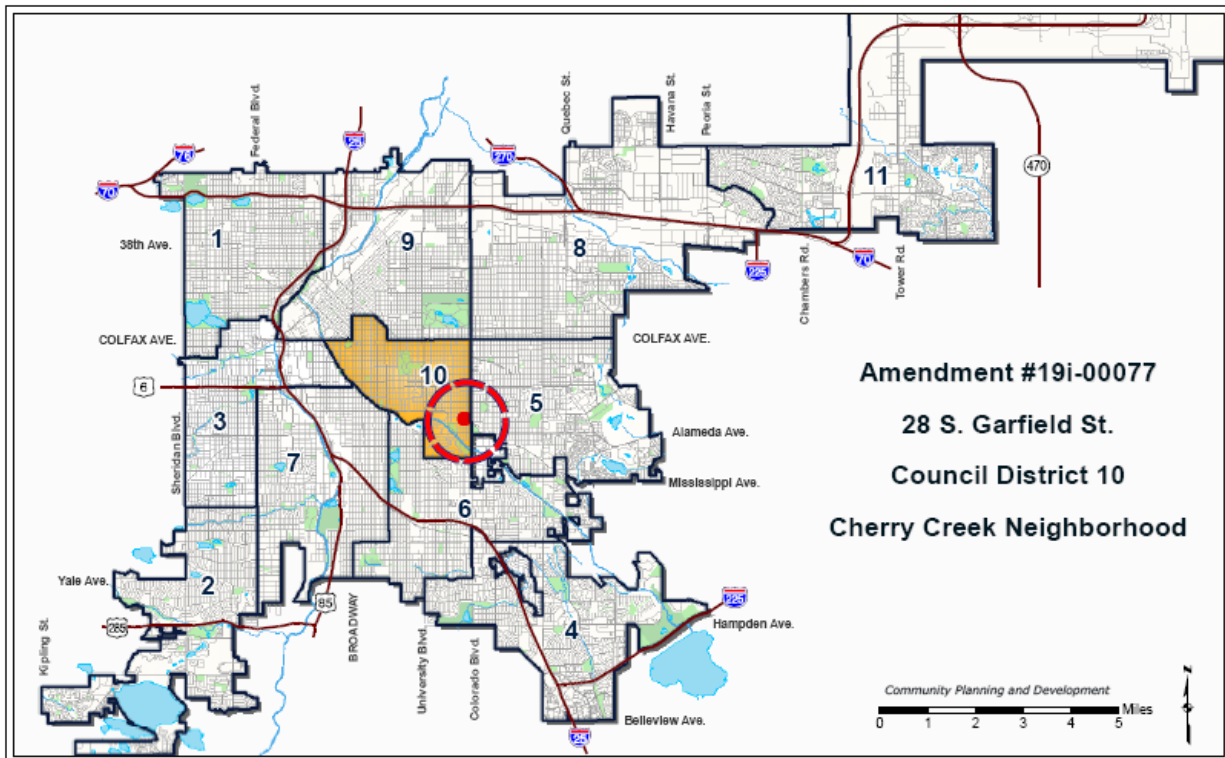

Request for Rezoning

Address:	22, 24, 26 & 28 South Garfield Street
Neighborhood/Council District:	Cherry Creek Neighborhood / Council District 10
RNOs:	Cherry Creek East Association; Green Cherry Creek; Inter-Neighborhood Cooperation (INC)
Area of Property:	12,503 square feet or 0.287 acres
Current Zoning:	PUD 470
Proposed Zoning:	G-RH-3
Property Owner(s):	Phyllis A. Sinclair; Richard C. Reed and Selma E. Reed, as Trustees of the Reed Family Trust; Natalie Aronson; 490 Columbine LLC.
Owner Representative:	Robert H. Bach (490 Columbine LLC.)

Summary of Rezoning Request

- The subject site is located in the Cherry Creek neighborhood on the east side of South Garfield Street between East Ellsworth Avenue and East Bayaud Avenue.
- The subject site is made up of a four-unit PUD which was approved in 1999.
- The property owners at 28 S. Garfield Street, one of the four units, desires to construct an addition to the rear of their property which is not allowed under PUD 470 but would be allowed under the G-RH-3 zone district.
- The adjoining property owners support the rezoning and are requesting this map amendment to bring the entire site under the city's current zoning code.
- The G-RH-3 (General Urban, Row House, 3 stories) zone district is a multi-unit district allowing urban house, duplex and row house building forms where row houses are not taller than three stories. Additional details of the G-RH-3 zone district can be found in Article 6 of the Denver Zoning Code (DZC).
- The proposed G-RH-3 zone district is an extension of the pattern of existing G-RH-3 zone district found throughout the surrounding blocks and is consistent with the zoning on the adjacent properties to the north and east.
- The site is currently zoned PUD 470, which is a custom zone district from Former Chapter 59 zoning allowing four adjoining units with two-car garages. Additional details of PUD 470 can be found within the attached document.

Existing Context

The subject site is located in the Cherry Creek neighborhood on South Garfield Street between East Ellsworth Avenue and East Bayaud Avenue. The area is primarily composed of multi-unit residential buildings with some single- and two-unit residential scattered throughout the surrounding blocks.

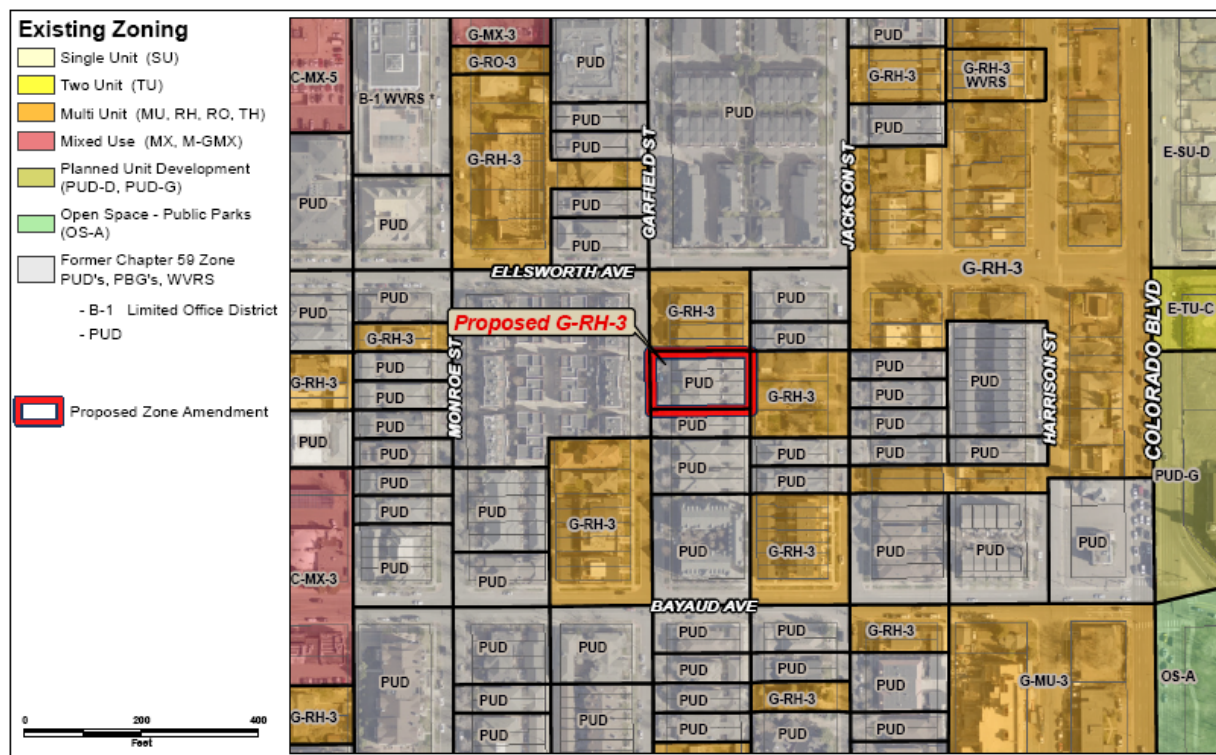

The subject site is less than ¼ mile from Burns Park to the southeast and Pulaski Park to the southwest. Additionally, the popular Cherry Creek Trail is ½ mile southwest of the site and the Cherry Creek Shopping Center is located the same distance to the west. The subject site is also within three blocks of Colorado Boulevard to the east, which provides high-capacity transit service to the immediate area. The applicant is requesting the G-RH-3 zone district which is an extension of the pattern of existing G-RH-3 zone district found throughout the surrounding blocks and is consistent with the zoning pattern of adjacent properties to the north and east.

The following table summarizes the existing building form context proximate to the subject site:

	Existing Zoning	Existing Land Use	Existing Building Form/Scale	Existing Block, Lot, Street Pattern
Site	PUD 470	Multi-Unit Residential	Four, 2-story townhomes with a shallow setback from South Garfield Street	Generally regular grid of streets interrupted to the south by Cherry Creek Drive
North	G-RH-3	Multi-Unit Residential	Two, 2-story duplexes with a shallow setback from South Garfield Street	

	Existing Zoning	Existing Land Use	Existing Building Form/Scale	Existing Block, Lot, Street Pattern
South	PUD 450	Multi-Unit Residential	Two-story townhomes with a shallow setback from South Garfield Street	Block sizes and shapes are generally consistent and rectangular. Rear-loaded garages with alleys. Pedestrian-oriented building frontages predominate.
East	G-RH-3	Two-Unit & Single-Unit Residential	Two, 1-story residential units both with moderate setbacks from South Jackson Street.	
West	PUD 366	Multi-Unit Residential	Two-story townhomes with a shallow setback from South Garfield Street	

1. Existing Zoning

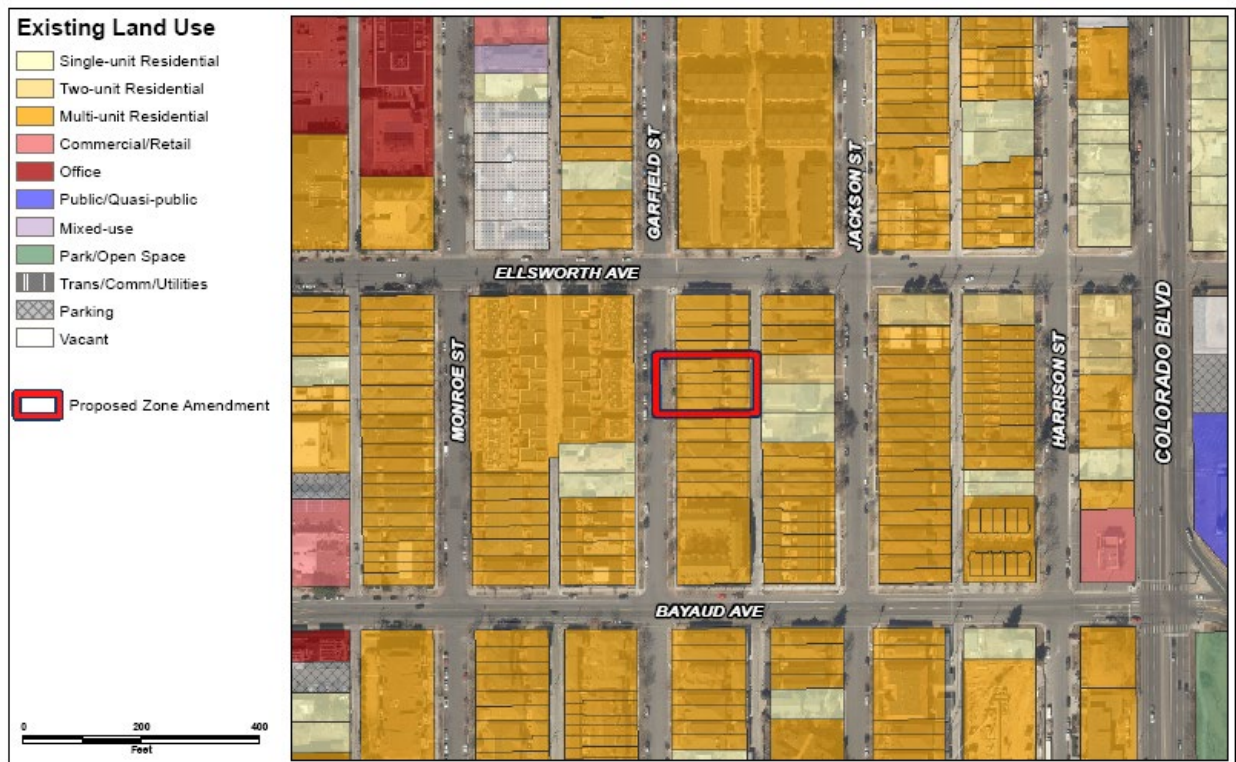

The existing zoning is PUD 470, which is a Former Chapter 59 custom zone district allowing four adjoining units with two-car garages. Within the PUD, maximum building coverage (including garages and accessory structures) can't exceed 60.5% and there is a maximum height of two stories and 36 feet. Front, rear, and side setbacks are specified within the PUD and permitted encroachments into the minimum setbacks must conform to those allowed in the R-2 zone district.

2. View Plane

The subject site is within the *Cranmer Park View Plane*. The intent of this view plane is to preserve the view of the Rocky Mountains (west of the subject site) from Cranmer Park (east of the subject site). No part of any structure within the view plane may exceed an elevation of 5,434 feet above mean sea level. Therefore, the subject site is subject to a maximum height restriction of roughly 131 feet. However, the proposed zone district of G-RH-3 has a lower maximum height of 30 to 35 feet for primary structures.

3. Existing Land Use Map

4. Existing Building Form and Scale

All images are from Google Street View.

Subject site facing east from South Garfield Street.

Two-unit residential (2 story) north of the subject site, facing east from South Garfield Street.

One-story residential east of the subject site (across from alley), facing west from South Jackson Street. Subject site building form in the background.

Two-story townhomes south of the subject site, facing east from South Garfield Street

Two-story townhomes west of the subject site, facing west from South Garfield Street

Proposed Zoning

The requested G-RH-3 zone district is found in the General Urban neighborhood context. It is a multi-unit zone district that allows for residential uses in a variety of building forms including urban house, duplex, and row house. Block sensitive setbacks apply to all building forms in the G-RH-3 zone district. The district has a maximum height of up to 3 stories with allowable encroachments. Minimum vehicle parking requirements in the G-RH-3 zone district are generally the same or lower than the minimum vehicle parking requirements in the existing PUD 470. For additional details of the requested zone district, see DZC Article 6.

The primary building forms allowed in the existing zone district and the proposed zone district are summarized here:

Design Standards	Existing PUD 470	Proposed G-RH-3
Primary Building Forms Allowed	Townhouse	Urban house, duplex, row house
Height in Stories / Feet (max)	2 stories / 36'	3 stories / 30'*
Primary Street Build-To Percentages (min)	N/A	N/A
Primary Street Build-To Ranges	N/A	N/A
Minimum Zone Lot Size/Width	N/A	3,000sf – 6,000sf /25'-50'**
Primary Street Setbacks (min)	10'	20'***
Building Coverages (max)	60.52%	50%-N/A**

*1' for every 5' increase in lot width over 50' up to a maximum height of 35'

**Standards vary by building form

***Where block sensitive setback does not apply

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

Assessor: Approved – No Response

Asset Management: Approved – See Comments Below

1. Original zoning did not allow for the enclosure of the patio (+200 SF) per unit.

Denver Public Schools: Approved – No Response

Department of Public Health and Environment: Approved – See Comments Below

1. DDPHE concurs with this proposed rezoning and is unaware of environmental concerns that should be considered for this rezoning.
2. General Notes: Most of Colorado is high risk for radon, a naturally occurring radioactive gas. Due to concern for potential radon gas intrusion into buildings, DDPHE suggests installation of a radon mitigation system in structures planned for human occupation or frequent use. It may be more cost effective to install a radon system during new construction rather than after construction is complete. If renovating or demolishing existing structures, there may be a concern of disturbing regulated materials that contain asbestos or lead-based paint. Materials containing asbestos or lead-based paint should be managed in accordance with applicable federal, state and local regulations.
3. The Denver Air Pollution Control Ordinance (Chapter 4- Denver Revised Municipal Code) specifies that contractors shall take reasonable measures to prevent particulate matter from becoming airborne and to prevent the visible discharge of fugitive particulate emissions beyond the property on which the emissions originate. The measures taken must be effective in the control of fugitive particulate emissions at all times on the site, including periods of inactivity such as evenings, weekends, and holidays.

4. Denver's Noise Ordinance (Chapter 36--Noise Control, Denver Revised Municipal Code) identifies allowable levels of noise. Properties undergoing Re-Zoning may change the acoustic environment but must maintain compliance with the Noise Ordinance. Compliance with the Noise Ordinance is based on the status of the receptor property (for example, adjacent Residential receptors), and not the status of the noise-generating property. Violations of the Noise Ordinance commonly result from, but are not limited to, the operation or improper placement of HV/AC units, generators, and loading docks. Construction noise is exempted from the Noise Ordinance during the following hours, 7am--9pm (Mon--Fri) and 8am--5pm (Sat & Sun). Variances for nighttime work are allowed, but the variance approval process requires 2 to 3 months. For variance requests or questions related to the Noise Ordinance, please contact Paul Riedesel, Denver Environmental Health (720-865-5410).
5. Scope & Limitations: DDPHE performed a limited search for information known to DDPHE regarding environmental conditions at the subject site. This review was not intended to conform to ASTM standard practice for Phase I site assessments, nor was it designed to identify all potential environmental conditions. In addition, the review was not intended to assess environmental conditions for any potential right-of-way or easement conveyance process. The City and County of Denver provides no representations or warranties regarding the accuracy, reliability, or completeness of the information provided.

Denver Parks and Recreation: Approved -- No Comments

Public Works -- R.O.W.- City Surveyor: Approved -- No Comments

Development Services -- Project Coordination: Approved -- No Response

Development Services - Fire Protection: Approved -- No Response

Development Services -- Transportation: Approved -- No Response

Development Services- Wastewater: Approved -- See Comments Below

1. DS Wastewater approves the subject zoning change. The applicant should note that redevelopment of this site may require additional engineering including preparation of drainage reports, construction documents, and erosion control plans. Redevelopment may require construction of water quality and detention basins, public and private sanitary and storm sewer mains, and other storm or sanitary sewer improvements. Redevelopment may also require other items such as conveyance of utility, construction, and maintenance easements. The extent of the required design, improvements and easements will be determined during the redevelopment process. Please note that no commitment for any new sewer service will be given prior to issuance of an approved SUDP from Development Services.

Public Review Process

	Date
CPD informational notice of receipt of the rezoning application to all affected members of City Council, registered neighborhood organizations, and property owners:	1/7/2020
Property legally posted for a period of 15 days and CPD written notice of the Planning Board public hearing sent to all affected members of City Council, registered neighborhood organizations, and property owners:	5/5/2020
Planning Board voted unanimously to recommend approval:	5/20/2020
CPD written notice of the Land Use, Transportation and Infrastructure Committee meeting sent to all affected members of City Council and registered neighborhood organizations, at least ten working days before the meeting:	5/18/20
Land Use, Transportation and Infrastructure Committee of the City Council:	6/2/20
Property legally posted for a period of 21 days and CPD notice of the City Council public hearing sent to all affected members of City Council and registered neighborhood organizations (tentative):	6/22/20
City Council Public Hearing (tentative):	7/13/20

- **Registered Neighborhood Organizations (RNOs):** To date, staff has received no comment letters from Registered Neighborhood Organizations.
- **Other Public Comment:** To date, staff has received one comment in opposition

Criteria for Review / Staff Evaluation

The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans

2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

1. Consistency with Adopted Plans

The following adopted plans currently apply to this property:

- *Denver Comprehensive Plan 2040*
- *Blueprint Denver* (2019)
- *Cherry Creek Area Plan* (2012)

Denver Comprehensive Plan 2040

The proposed rezoning is consistent with many of the adopted *Denver Comprehensive Plan 2040* strategies. The following strategies apply from the Equitable, Affordable and Inclusive vision element:

- Equitable, Affordable and Inclusive Goal 1, Strategy A – *Increase development of housing units close to transit and mixed-use developments* (p. 28).
- Equitable, Affordable and Inclusive Goal 2, Strategy A – *Create a greater mix of housing options in every neighborhood* (p. 28).

The requested G-RH-3 zone district will allow a mix of housing options, including urban house, duplex, and row house building forms, close to the high-capacity transit along Colorado Boulevard and provide future residential near a mix of uses within the Cherry Creek neighborhood. It is therefore consistent with the above strategies in the Equitable, Affordable and Inclusive vision element.

The following strategies apply from the Strong and Authentic Neighborhoods vision element:

- Strong and Authentic Neighborhoods Goal 1, Strategy B – *Ensure neighborhoods offer a mix of housing types and services for a diverse population* (p. 34).
- Strong and Authentic Neighborhoods Goal 1, Strategy D – *Encourage quality infill development that is consistent with the surrounding neighborhoods and offers opportunities for increased amenities* (p. 34).

In addition to offering a mix of housing types for a diverse population, the zone district will also apply current, form-based zoning code standards, ensuring quality development appropriate for the neighborhood. The proposed zone district is an extension of the existing zoning currently found in surrounding blocks. It is therefore consistent with the strategies in the Strong and Authentic Neighborhoods vision element.

Similarly, the application is also consistent with the following strategies in the Environmentally Resilient vision element:

- *Environmentally Resilient Goal 8, Strategy A – Promote infill development where infrastructure and services are already in place* (p. 54).

- Environmentally Resilient Goal 8, Strategy B – *Encourage mixed-use communities where residents can live, work and play in their own neighborhoods* (p. 54).

This site is an infill location where infrastructure is already in place allowing residents to live, work and play in the area. Compact infill development near transportation options and existing infrastructure assists in improving public health indicators while reducing water usage. Rezoning to facilitate redevelopment of this site advances the strategies of *Comprehensive Plan 2040*.

Blueprint Denver

Blueprint Denver was adopted in 2019 as a supplement to *Comprehensive Plan 2040* and establishes an integrated framework for the city's land use and transportation decisions. *Blueprint Denver* identifies the subject property as part of a "Low-Medium Residential" area within the General Urban neighborhood context and provides guidance from the future growth strategy for the city.

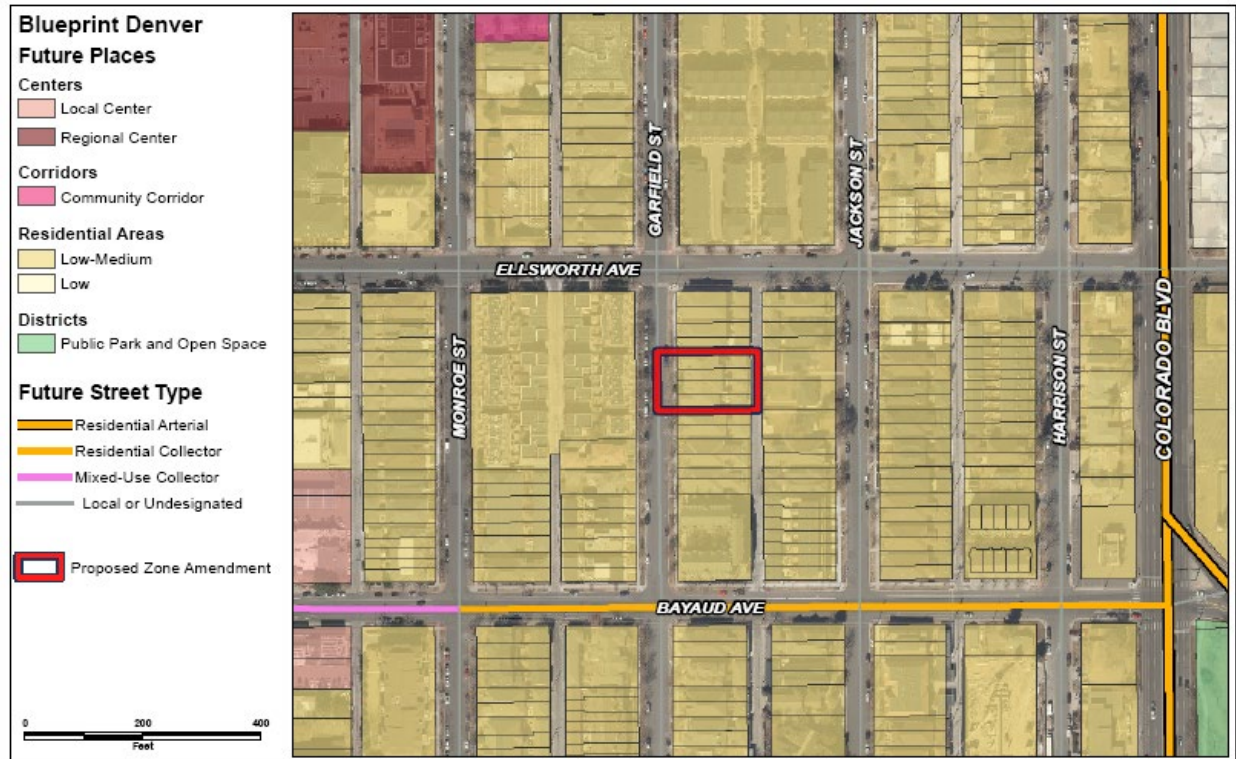

Blueprint Denver Future Neighborhood Context

The subject site is shown on the context map as General Urban neighborhood context. The neighborhood context map and description help guide appropriate zone districts (p. 66). The General Urban neighborhood context is described as "vibrant places with proximity to Denver's major centers like Downtown and Cherry Creek. Homes in this context vary from multi-unit complexes to compact single-unit homes. Development should be sensitive to the existing neighborhood character and offer residents a mix of uses, with good street activation and connectivity" (p. 237).

The proposed G-RH-3 zone district is a multi-unit zone district and part of the General Urban context intended to “promote and protect higher density residential neighborhoods within the character of the General Urban neighborhood context”, and “promote safe, active, pedestrian-scaled residential areas” (DZC 6.2.2.1). The proposed rezoning to G-RH-3 is appropriate and consistent with the General Urban context plan direction.

Blueprint Denver Future Places

The Future Places map shows the subject site as part of a “Low-Medium Residential” area within the General Urban context. *Blueprint Denver* describes these areas as, “primarily residential, with a mix of unit types. Single- and two-unit homes are interspersed with lower-scale multi-unit buildings. Limited neighborhood serving commercial can be found, particularly at intersections. Heights are generally up to 3 stories” (p. 246).

The residential emphasis and the three-story heights of the proposed G-RH-3 zone district are consistent with this plan direction. Furthermore, the G-RH-3 zone district is a multi-unit district with a variety of residential building forms including single, two-unit, and lower-scale multi-unit residential. “The building form standards, design standards, and uses work together to promote safe, active, pedestrian-scaled residential areas” (DZC 6.2.2.1). The proposed rezoning to G-RH-3 is appropriate and consistent with the “Low-Medium Residential” plan direction.

Street Types

Blueprint Denver street types work in concert with the future place to evaluate the appropriateness of the intensity of the adjacent development (p. 67). *Blueprint Denver* classifies South Garfield Street and East Ellsworth Avenue (to the north) as undesignated local streets. Local streets “are designed for the highest degree of property access and the lowest amount of through movement” (p. 154). East Bayaud Avenue (to the south) is classified as a Residential Collector street. Residential Collector streets, “collect movement from local streets and convey it to arterial streets (p.154)”. These streets contain primarily residential uses, but may also include schools, civic uses, parks, small retail nodes and other similar uses.

The proposed G-RH-3 district is consistent with this plan direction for this location as, “residential uses are primarily located along local and residential arterial streets” (DZC 6.1.1). In addition, block sizes and shapes within the G-RH-3 district are consistent and include detached sidewalks, tree lawns, and landscaping in the front setback to promote pedestrian and bicycle activity.

Growth Strategy

Blueprint Denver's growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51). The subject property is located within “All Other Areas of the City”, which are anticipated to see around 20% of new housing growth and 10% of new employment growth by 2040 (p. 51). The proposed map amendment to G-RH-3 will enable compatible residential growth for this location.

Strategies

Blueprint Denver provides recommendations related to properties that retained zoning from the Former Chapter 59 zoning code. Land Use & Built Form: General Policy 3, Strategy B, says, “Rezone properties from the Former Chapter 59 zoning code so that the entire city is covered by the DZC, including continuing to incentivize owners to come out of the old code” (p. 73). That same policy also speaks to custom zoning such as PUDs; Strategy B says, “Limit the use of site-specific, customized zoning tools—such as Planned Unit Developments (PUDs) and waivers/conditions—to unique and extraordinary circumstances. The zoning code offers a wide variety of zone districts that cover the diverse contexts and places of Denver. Custom zoning tools are most effective when a standard zone district does not exist to implement the adopted plans for an area” (p. 73). Therefore, the proposed rezoning to come from custom zoning under Former Chapter 59 to a standard zone district such as G-RH-3 under the DZC is consistent with *Blueprint Denver*.

Small Area Plan: Cherry Creek Area Plan (2012)

The Cherry Creek Area Plan was adopted by City Council in 2012 and applies to the subject site. The format of the Cherry Creek Area Plan includes general framework plan recommendations that apply throughout the planning area and subarea recommendations that apply in smaller subareas.

General Framework

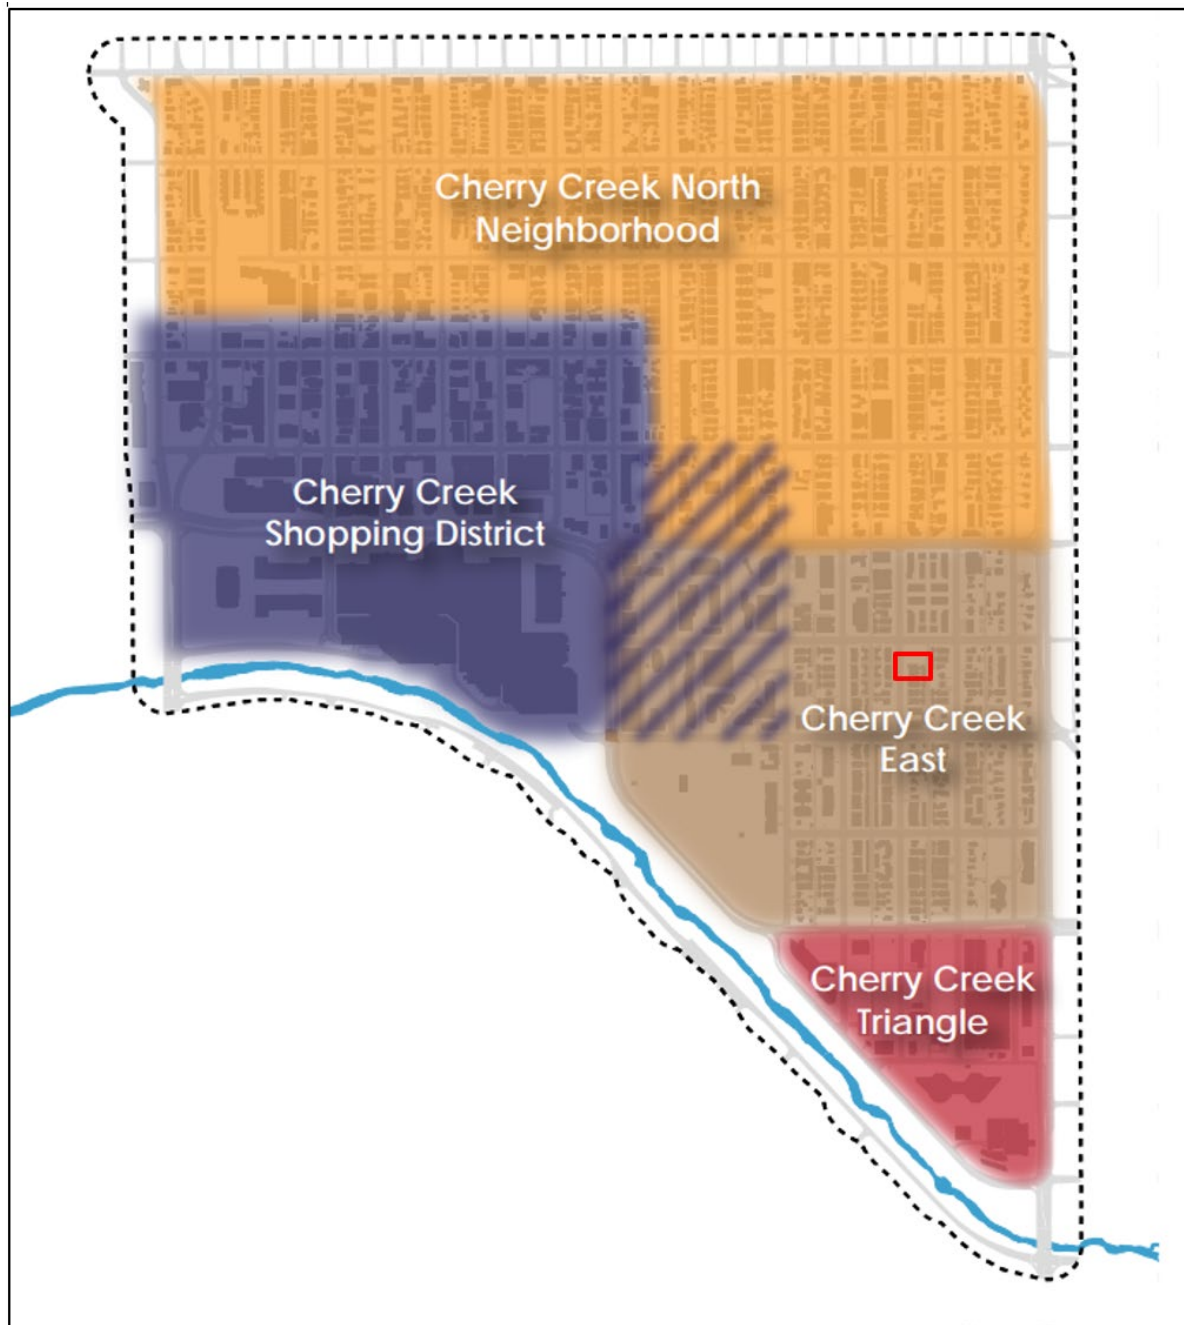

The overall vision for the Cherry Creek Area Plan is to create a connected, distinctive, green and prosperous neighborhood, and the Cherry Creek Area Plan builds on the area’s established and emerging assets (p.10):

- A unique combination of the Cherry Creek Shopping Center, an outdoor shopping district and great neighborhoods
- A growing variety of people who live, work and shop in the area
- Strong local and regional amenities
- Unique connections to the Cherry Creek Greenway—wild below, urban above
- Exceptional pedestrian experience
- Great regional and national image and signature identity for Denver
- Centrally located—accessible from throughout the region
- High Quality building and streetscape design
- Compact live, work, and play community

The intent of the G-RH-3 zone district is to allow for a variety of mixed-residential housing options. In addition to providing a future residential use, the proposed zone district is compatible with the existing zone district in the neighborhood and it will apply modern zoning code standards which will ensure quality infill development and streetscape that is appropriate for the surrounding context. Therefore, this rezoning is consistent with the general framework of the Cherry Creek Area Plan and will provide residents the opportunity to live, work and play in a compact neighborhood.

Subarea Recommendations

The Cherry Creek Area Plan also organizes the neighborhood into subareas and provides recommendations for each of these smaller neighborhood areas. The subject site is in the Cherry Creek East subarea which is described as a, “highly desirable, moderate density residential neighborhood that also includes a high-density office and residential district on its western edge” (p. 55).

Within the Cherry Creek East subarea, the Plan recommends a future land use of “Urban Residential” with the intent of, “supporting a variety of housing types including low and mid-rise multifamily, row houses, duplex, single family and accessory dwelling units” (p. 72). To reinforce the residential character within this subarea, the Plan further calls for maintaining and enhancing the existing character and walkable environment of Cherry Creek East where new development will respect the predominant urban form” (p.72). Finally, the plan speaks to existing PUDs in the subarea and states that, “as opportunities arise with new development or property owner interest, property owners and neighborhood representatives will work together with the City to determine an appropriate Denver Zoning Code district that serves to implement this plan” (p.72).

The proposed rezoning is consistent with the Cherry Creek East subarea recommendations of the Cherry Creek Area Plan, as the proposed G-RH-3 will encourage development that is consistent with the plan’s land use and building height recommendations and will help to achieve other key recommendations for the Cherry Creek East subarea by reinforcing residential character, maintaining established scale, and rezoning out of a former Chapter 59 PUD.

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to G-RH-3 will result in the uniform application of zone district building form, use, and design regulations on this site as they are applied to any other site zoned G-RH-3.

3. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the City primarily through the implementation of the City's adopted plans. The proposed rezoning would also facilitate housing density near a mix of uses and transit, which have been linked to increased physical activity,¹ decreased obesity,² and decreased driving.³

4. Justifying Circumstance

The application identifies changed or changing conditions as the justifying circumstance under DZC Section 12.4.10.8.A.4., "Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include: c. That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning." The zoning on the subject site is a Former Chapter 59 PUD. Rezoning from Former Chapter 59 zoning into the Denver Zoning Code is an appropriate justifying circumstance. Additionally, rezoning out of the existing PUD 470 will provide more flexibility to modify the site to accommodate changing conditions in the neighborhood.

5. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The requested G-RH-3 zone district is within the General Urban neighborhood context which is primarily characterized by multi-unit residential uses in a variety of building forms. Single-unit and two-unit residential uses are also found in a mix of residential building forms. Residential uses are primarily located along local and residential arterial streets which consist of a regular pattern of block shapes surrounded by an orthogonal street grid (DZC Division 6.1).

The proposed G-RH-3 zone district is consistent with the neighborhood context description and appropriate for this location because it is a multi-unit district allowing a variety of building forms, compatible height, and building form/design standards. This South Garfield Street location is appropriate for the General Urban neighborhood context because the uses, lots, and street and block patterns in the area are consistent with the neighborhood context description. The building form standards and uses work together to promote safe, active, pedestrian-scaled residential areas. The standards accommodate the pattern of urban house, duplex and row house building forms.

In addition to allowing the above building forms, the specific intent of the residential districts is, "to promote and protect higher density residential neighborhoods within the character of the General Urban neighborhood context. These regulations allow for multi-unit districts with a variety of residential

³ Frumkin, Frank, and Jackson 2004; Fran et al. 2006; Ewing et al. 2008; Stone 2008.

building forms” (DZC 6.2.2.1.A). The G-RH-3 zone district is “a multi-unit district allowing urban house, duplex, and row house building forms. Row houses are not taller than three stories” (DZC 6.2.2.2.A).

The proposed rezoning is consistent with the General Purpose and Specific Intent as it will encourage multi-unit residential of up to 3 stories within the character of the General Urban neighborhood context consistent with the existing uses in the neighborhood, and located in area where 3-story low-scale multi-residential uses are envisioned by the adopted plans.

REVIEW CRITERIA	
General Review Criteria: The proposal must comply with all of the general review criteria DZC Sec. 12.4.10.7	<input checked="" type="checkbox"/> Consistency with Adopted Plans: The proposed official map amendment is consistent with the City's adopted plans, or the proposed rezoning is necessary to provide land for a community need that was not anticipated at the time of adoption of the City's Plan. Please provide an attachment describing relevant adopted plans and how proposed map amendment is consistent with those plan recommendations; or, describe how the map amendment is necessary to provide for an unanticipated community need.
	<input checked="" type="checkbox"/> Uniformity of District Regulations and Restrictions: The proposed official map amendment results in regulations and restrictions that are uniform for each kind of building throughout each district having the same classification and bearing the same symbol or designation on the official map, but the regulations in one district may differ from those in other districts.
	<input checked="" type="checkbox"/> Public Health, Safety and General Welfare: The proposed official map amendment furthers the public health, safety, and general welfare of the City.
Additional Review Criteria for Non-Legislative Rezoning: The proposal must comply with both of the additional review criteria DZC Sec. 12.4.10.8	Justifying Circumstances - One of the following circumstances exists: <ul style="list-style-type: none"> <input type="checkbox"/> The existing zoning of the land was the result of an error. <input type="checkbox"/> The existing zoning of the land was based on a mistake of fact. <input type="checkbox"/> The existing zoning of the land failed to take into account the constraints on development created by the natural characteristics of the land, including, but not limited to, steep slopes, floodplain, unstable soils, and inadequate drainage. <input checked="" type="checkbox"/> Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include: <ul style="list-style-type: none"> a. Changed or changing conditions in a particular area, or in the city generally; or, b. A City adopted plan; or c. That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning. <input type="checkbox"/> It is in the public interest to encourage a departure from the existing zoning through application of supplemental zoning regulations that are consistent with the intent and purpose of, and meet the specific criteria stated in, Article 9, Division 9.4 (Overlay Zone Districts), of this Code. Please provide an attachment describing the justifying circumstance. <input checked="" type="checkbox"/> The proposed official map amendment is consistent with the description of the applicable neighborhood context, and with the stated purpose and intent of the proposed Zone District. Please provide an attachment describing how the above criterion is met.
REQUIRED ATTACHMENTS	
Please ensure the following required attachments are submitted with this application:

December 10, 2019

City and County of Denver
Community Planning and Development
201 West Colfax Avenue
Denver, CO 80202

Greetings:

We are requesting to have the property located at 22, 24, 26 and 28 South Garfield Street in Cherry Creek East rezoned from PUD 470 to G-RH-3. The owner of 28 South Garfield desires to enclose a portion of the rear patio by extending the rear wall approximately 10 feet and creating approximately 200 additional square feet of space. The change from PUD 470 to G-RH-3 would allow this addition as well as allow other residents to make future changes to their units that would be consistent with the G-RH-3 zoning but may not be permitted under the current PUD 470 zoning.

Consistency with Adopted Plans

The proposed G-RH-3 zoning is consistent with the City's vision for the neighborhood and supported by all of the applicable City of Denver adopted plans. The following plans apply to the subject property:

(a) Denver Comprehensive Plan

The proposed rezoning to G-RH-3 is consistent with the specific goals and strategies of the Denver Comprehensive Plan. The applicable goals and strategies are the following:

- (1) Vision Element: Equitable, Affordable and Inclusive. Goal 2, Strategy A – Create a greater mix of housing options in every neighborhood for all individuals and families. The requested rezoning from PUD 470 to G-RH-3 substantially broadens the type, size, and price of units that can be constructed on the property to appeal to residents across a broader range of income, ages and needs.
- (2) Vision Element: Strong and Authentic Neighborhoods. Goal 1, Strategy B - Insure neighborhoods offer a mix of housing types and services for a diverse population. The requested rezoning to G-RH-3 will allow a mix of housing types, including single family and multiple unit dwellings of different sizes and different prices and further the goal of offering a mix of housing types and prices for a diverse population.
- (3) Vision Element: Strong and Authentic Neighborhoods. Goal 1, Strategy B – Encourage quality infill development that is consistent with surrounding neighborhoods and offers opportunities for increased amenities. The mix of unit type, height, size and density allowed by G-RH-3 is consistent with and enhances the surrounding neighborhoods.

(b) **Blueprint Denver**

- (1) Recommendations. The recommendations in Blueprint Denver with respect to Land Use and Built Form – General specifically addresses the City’s intention to limit the use of site specific, customized zoning. Goal 6 of Recommendation 3, Subsection B, provides specifically that the City should limit the use of site specific, customized zoning tools, such as planned unit developments and waivers conditions to unique and extraordinary circumstances. In addition, Subsection A of Recommendation 3 encourages the rezoning of properties from the former Chapter 59 Zoning Code so that the entire City is covered by the Denver Zoning Code. The Zoning Code offers a wide variety of zone districts that cover the diverse context and places of Denver. The proposed rezoning from PUD 470 to G-RH-3 implements this recommendation and changes the site specific zoning to the preferable zone district and implements the policy to have the entire City covered by the Denver Zoning Code.
- (2) Neighborhood Context Designation. The neighborhood context map and description provides a guide to establishing appropriate zone districts. The neighborhood context for 22-28 South Garfield is General Urban. The General Urban neighborhood context provides for predominantly multi-unit structures and one and two unit residential. The current setbacks from Garfield Street, height and four-unit nature of the current development are consistent with the neighborhood context designation and the rezoning to G-RH-3 will allow a mix of residential units which is consistent with the General Urban designation.
- (3) Future Places Map Designation. The Blueprint Denver Future Places map provides for Low-Medium density residential. The Low-Medium designation provides for predominantly multi-unit residential and midscale residential buildings usually mixed with a variety of lower scale residential types. The requested zoning to G-RH-3 is consistent with zoning and the Low-Medium density and mix of property types contemplated by the Future Places map and with the existing primarily residential character of the neighborhood.
- (4) Growth Strategy. The subject property is designated as “all other areas of the City” which anticipates 20% residential growth and 10% job growth. Unlike the existing PUD 470, the G-RH-3 allows the potential for some residential growth and a mix of residential unit types.
- (5) Street Type. The Street Types Map in Blueprint Denver designates the street type for South Garfield Street as “Local.” Local streets are most often characterized by residential uses. G-RH-3 zoning is a residential zone district and, accordingly, the rezoning of the property as G-RH-3 is consistent with the Local designation of the street.

Cherry Creek Area Plan

The property is in the Cherry Creek East Subarea and within the Urban Residential area designation. The Urban Residential designation seeks to “continue supporting a variety of housing types, including low and mid-rise multi-family, row houses, duplex, single family and accessory dwelling units.” The proposed G-RH-3 zoning is a low and mid-rise family district consistent with the Cherry Creek Plan. In addition, the proposed rezoning from PUD 470 to G-RH-3 meets a number of the Cherry Creek East Subarea Recommendations including the following:

- (1) Rezone PUDs. The recommendation provides that as opportunities arise with respect to new development or property owner interest, property owners and neighborhood representatives will work together with the City to determine the appropriate Denver Zoning code district that serves to implement this plan. The proposed rezoning to G-RH-3 and elimination of PUD 470 carries out this recommendation.
- (2) Respect the Existing Scale. The recommendation provides that zoning enhance the existing pattern of development intensity with low-scale buildings in the residential areas. The G-RH-3 zoning which permits a maximum of three stories is entirely consistent with this recommendation.
- (3) Reinforce Residential Character. The recommendation provides that the plan should maintain and enhance the existing character and walkable environment in Cherry Creek East. The G-RH-3 zoning is consistent with the existing residential character of the neighborhood and promotes this recommendation.

Uniformity of District Regulations

Approval of the proposed Zone Map Amendment to G-RH-3 will result in the uniform application of building form, use and design regulations. The property, once rezoned, will adhere to all applicable regulations on building height, siding, design elements and pedestrian access. The proposed Zone District is consistent with and reinforces the uniform application of zone districts as well as the designated purpose of the zoning map to help shape future development to align with distinct but uniform City planning goals.

Future Health Safety and General Welfare

Approval of the proposed zoning amendment will further the public health, safety and welfare by implementing the City’s adopted land use policies. Rezoning of the property pursuant to the Zone Map Amendment will continue to advance public policy priorities of the City identified for this area of the City.

Justifying Circumstances

Justifying circumstances are found in Section 12.4.10.8 of the Denver Zoning code which provides that since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include: . . . (c) That the City adopted the Denver Zoning code and the property retained Former Chapter 59 zoning.

Consistency with Neighborhood Context, Zone District Purpose and Intent

- (a) The subject property is subject to Article 6 of the Denver Zoning code governing the General Urban Neighborhood Context. Section 6.1.1 of the Denver Zoning code provides that the General Urban Neighborhood Context is characterized by multi-unit residential uses in a variety of building forms. The G-RH-3, which allows single family, multi-family and row houses is consistent with the General Urban Neighborhood Context.
- (b) Similarly, Section 6.1.4 governing building heights suggests that the area will be characterized by moderate to high residential buildings . . . and that lower scale structures are typically found in areas transitioning to a less dense urban neighborhood. The existing two-story structure and the three-story structures allowed by G-RH--3 are consistent with these building heights. The specific intent provisions of Section 6.2.2.2.A governing G-RH-3 zoning provide that it is a multi-unit district allowing urban house, duplex and row house building forms. Row houses are not taller than three stories. The existing four-unit row house meets and carries out the specific intent of the G-RH-3 zoning.
- (c) The general purpose of residential districts as reflected in Section 6.2.2.1 of the Denver Zoning code is to promote and protect higher density residential neighborhoods within the character of the General Urban Neighborhood Context. These regulations allow for multi-unit districts with a variety of residential building forms. The G-RH-3 zoning is used extensively in the Cherry Creek East area where the property is located and a number of surrounding properties are currently zoned G-RH-3. The requested rezoning will be consistent with both the general purpose and the surrounding properties.

ACKNOWLEDGMENT

A notary public or other officer completing this certificate verifies only the identity of the individual who signed the document to which this certificate is attached, and not the truthfulness, accuracy, or validity of that document.

State of California
County of Placer

On December 7, 2016 before me, Sarah Khoury, Notary Public
(insert name and title of the officer)

personally appeared Diane Fox
who proved to me on the basis of satisfactory evidence to be the person(s) whose name(s) is/are subscribed to the within instrument and acknowledged to me that he/she/they executed the same in his/her/their authorized capacity(ies), and that by his/her/their signature(s) on the instrument the person(s), or the entity upon behalf of which the person(s) acted, executed the instrument.

I certify under PENALTY OF PERJURY under the laws of the State of California that the foregoing paragraph is true and correct.

WITNESS my hand and official seal.

Signature Sarah Khoury (Seal)

WRITTEN AUTHORIZATION TO REPRESENT PROPERTY OWNERS

Each of the undersigned, as the owner of the property described below, hereby appoints Robert H. Bach to act as its authorized representative in connection with all matters related to the Zone Map Amendment (Rezoning) – Application with respect to property located at 22, 24, 26 and 28 S. Garfield Street, Denver, Colorado in connection with the request to rezone such property from the current zone district of PUD 470 to the Proposed Zone District G-RH-3. This authorization is solely limited to the matter set forth above.

11. Legal Description of property: (If Legal Description is lengthy, attach additional sheet.)

Lots: 5, 6, 7 and 8

Block: 25

Addition: Burlington Capitol Hill Addition

12. Area of subject property:

12,512.5 sq. ft. 0.287 acres

13. Present Zone

PUD #196

14. Proposed Zone

PUD

15. Explain in detail the **legal basis** for the proposal: either (a) an error in the zoning map as approved by City Council, or (b) changing conditions. The Cherry Creek Neighborhood and the new Cherry Creek Neighborhood Plan support redevelopment at a higher density than the existing conditions but a lower density than the PUD approved in 1986 for this property.

16. State the land use and development proposed for the property to be rezoned. Include the time schedule (if any) for development. This PUD proposes a multiple unit dwelling developed as four (4) attached townhomes with semi-private front courtyards and attached two (2) car garages accessible from the alley. All front entries are accessed from Garfield Street. All units are clearly differentiated using individual entries and bay windows as well as other architectural treatments. This proposed PUD is consistent with the Cherry Creek East guidelines, in terms of uses, setbacks, heights, density, architectural character, and streetscape improvements.

17. Describe the nature and effect of the proposed amendment.

The effect of the proposed amendment would allow the construction of four (4) townhome style multiple dwelling units, where one (1) residence now stands. Due to the changing conditions, the Cherry Creek residential area supports this proposed amendment. The existing residence is old and is out of character with the immediate neighborhood and the redevelopment goals of the Cherry Creek Northern Edge Subdistrict. This proposed PUD zoning amendment is consistent with many other developments in the immediate area. The decreased density is required to make this development marketable and comparable.

18. List all attachments: PUD Application,
Existing Conditions Map,
District Plan,
Building Elevations, and
Zoning Vicinity Map.

19. Applicant's signature

Anthony Miller, Manager and Owner

1. SCHEDULE

- a. Date of pre-application conference Aug. 13, 1998.
City representative(s) present Doug Hendrixson, Theresa Lucero.
- b. Submittal date of preliminary application September 4, 1998.
- c. Submittal date of completed application October 2, 1998.
- d. Application is scheduled for a:
☐ Planning Board Hearing on _____
☒ Planning Office Hearing on Oct. 23, 1998.
☐ Planning Staff Review. _____

2. DESCRIPTION OF PLANNED UNIT DEVELOPMENT (PUD)

The use of terms "Article" or "Section" refer to portions of the Revised Municipal Code of the City and County of Denver. It is required that the current terms and uses already defined in Section 59-2 of the Zoning Ordinance be used in describing this proposal. Terms like "retail" or "light industrial" require further definition. Gross floor area shall include interior balconies and mezzanines, but shall not include parking garages, any story of a building where at least seventy-five percent (75%) of that floor is occupied by mechanical equipment or any story where the ceiling is less than four (4) feet above grade. Attach additional sheets if necessary.

a. MAXIMUM GROSS FLOOR AREA FOR EACH PROPOSED USE

	Use	Maximum Sq. Ft.
A.	Multiple Unit Dwelling	11,000
B.		
C.		
D.		
	Total Sq. Ft.	11,000

MAXIMUM FLOOR AREA RATIO (F.A.R) 0.88: 1.

The floor area ratio is the ratio between the gross floor area of a building to the area of the zone lot on which the building is constructed. NOTE: Land area dedicated for public streets is not included in the area of the zone lot.

MAXIMUM NUMBER OF DWELLING UNITS: 4.00.

MAXIMUM NUMBER OF DWELLING UNITS PER ACRE: 13.94 D.U./AC.

b. LAND COVERAGE BY BUILDINGS AND IMPERVIOUS SURFACES

	SQ. FT	% OF SITE AREA
Maximum area of building coverage (including garage(s) and all other accessory structures):	7,572	60.52

P.U.D. at _____ 26 South Garfield Street _____

(Address)

Maximum area of drives and parking:	877	7.01
Maximum area of other impervious surfaces:	904	7.22
MAXIMUM TOTAL OF BUILDING AND IMPERVIOUS SURFACES	9,353	74.75

c. LANDSCAPED AND/OR PERMEABLE AREAS

	SQ. FT.	% OF SITE AREA.
Minimum area of live or organic landscaped lot coverage:	2,236	17.87
Approximate area of non-live material coverage (graveled or other areas with permeable surfaces):	923.5	7.38
MINIMUM TOTAL OF LANDSCAPED AND/OR PERMEABLE AREAS:	3,159.5	25.25

d. PROJECT AREA TOTALS (totals of "b" and "c" above)

	SQ. FT.
Building and impervious surfaces:	9,353
Landscaped and/or permeable areas:	3,159.5
TOTAL SITE AREA: (This area must equal the site area listed on page 1)	12,512.5

e. SETBACKS

The minimum setbacks for buildings are shown on the District Plan. A building envelope may be used to graphically depict the minimum setbacks required.

North: _____ ft.	Front: _____ 10 ft.
South: _____ ft.	Rear: _____ 8 ft.
East: _____ ft.	Side: _____ 5 ft. 6 in.
West: _____ ft.	Garages (Side): _____ 8 ft. 10 in.

The minimum spacing between structures shall be N/A ft.

Permitted encroachments into the minimum setbacks for buildings shall conform to Section 59 – 119(2)d of the R-2 zone district.

Official Parkway Setback requirements for this P.U.D. are: N/A ft. for buildings and N/A ft. for signs.

f. MAXIMUM HEIGHTS OF STRUCTURES

The maximum height of structures shall be 2 stories which shall not exceed a total of 36 ft. NOTE: The height of a building shall be determined by the vertical distance from the highest point of a pitched roof or the top of parapet around a flat roof to the average elevation of the corners of the proposed building at the finished grade.

Rooftop features (such as solar collectors, antennas, chimneys, flues, vents and air conditioning equipment) may exceed the maximum height of structures by 5 feet.

Bulk plane restrictions ☐ shall ☒ shall not be required. If required, bulk plane restrictions shall conform to Section 59 - of the zone district. NOTE: Solar collectors and mechanical equipment are not exempted from bulk plane regulations!!

g. OFF-STREET PARKING

This project shall contain off-street parking spaces at the ratios shown in the following chart. If completed to the maximum floor area, the project shall contain a minimum of 8 off-street parking spaces. Parking for residential uses should be expressed in number of spaces per dwelling unit. NOTE: Any floor area utilized by a permitted use listed under 2.a. in a story where the ceiling is less than four (4) feet above grade shall be calculated into the off-street parking requirement.

P.U.D. at

26 South Garfield Street

(Address)

Does this P.U.D. comply with the use and maintenance requirements of Section 59-585(2)-(9)? Yes ☒ No ☐

Do the parking spaces and/or aisles in this P.U.D. comply with the requirements of Section 59-586, Chart No. 1? ☒ Yes ☐ No. If **no** complete the following section:

☐ PARKING SPACE

Universal space dimensions
space dimensions
space dimensions
compact spaces to large spaces

N/A Compact
____ Large
____ Ratio of

☐ DRIVING AISLES

Angle of stalls

Aisle widths N/A

Will this project contain parking for bicycles? Yes ☐ No ☒ If yes, bicycle parking requirements shall be _____. Will this (these) bicycle parking area(s) comply with the rules and regulations for dimensional and equipment standards of Section 59-582(e)? Yes ☐ No ☐. If not, bicycle parking fixtures and locations shall be approved by the City Bicycle Planner (640-2453).

h. OFF-STREET LOADING

This project contains Zero (0) off-street loading space(s). Will this (these) space(s) conform with dimensions required in Section 59-599? Yes ☐ No ☐ If not, off-street loading space dimension requirements shall be: N/A.

i. SURFACE DRAINAGE

The rules and regulations of the Wastewater Management Division will require certain design and construction considerations to control surface water runoff. Does the site contain a flood hazard area as identified by the Federal Emergency Management Agency? ☐ Yes ☒ No Does the site contain wetland areas? ☐ Yes ☒ No For assistance in answering these questions, contact the Wastewater Management Division at 446-3400.

P.U.D. at

26 South Garfield Street

(Address)

j. **INTERIOR STREETS, DRIVES, PARKING AREAS AND PEDESTRIAN WALKWAYS**

Interior streets, drives, parking areas and pedestrian walkways within the P.U.D. district, if any, are shown on the District Plan.

k. **EASEMENTS**

Existing and/or proposed utility and/or access easements are shown on the District Plan or are located as follows: No easements recorded, proposed utilities will enter from alley and Garfield Street.

l. **LANDSCAPING AND BUFFERING**

Areas to be landscaped must be shown on the District Plan. However, a more detailed landscaping plan may be required by the Planning Office as a part of this application. All foliage shall be maintained in a healthy, growing and safe condition. NOTE: A detailed landscaped plan is required as a part of the site plan review phase after the rezoning is approved.

MINIMUM NUMBER OF TREES ON PRIVATE PROPERTY: Six (6)

MINIMUM SIZE OF TREES AT TIME OF PLANTING:

Evergreens/Coniferous (height):	<u>8 feet.</u>
Deciduous (caliper):	<u>3 inch.</u>
Ornamental (caliper):	<u>2 inch.</u>

MINIMUM % OF EVERGREEN OR CONIFEROUS TREES: 33%.

MINIMUM NUMBER OF SHRUBS ON PRIVATE PROPERTY: 18.

MINIMUM SIZE OF CONTAINER AND HEIGHT AND/OR SPREAD REQUIREMENTS FOR PLANTED SHRUBS: 5 Gal., 18-24" height & spread.

Does the proposed P.U.D. comply with parking lot landscaping requirements of Section 59-585(10) Yes ☐ No ☒

NUMBER OF STREET TREES PROPOSED IN THE PUBLIC RIGHT OF WAY: Two (2).

If street trees are proposed or required in the public right-of-way, such trees shall be installed in accordance with the requirements of the City Forester (964-2580).

If street tree plantings are required within the right-of-way of a state highway, contact the Colorado Department of Transportation for approval (757-9930).

All foliage shall be maintained in a healthy, growing and safe condition.

FENCES AND/OR WALLS

The height of fences and/or walls which may be built in the P.U.D. district, except for the front setback space, shall be a minimum of Six (6) ft. and a maximum of Six (6) ft.

The height of fences and/or walls which may be built within the P.U.D. district front setback space shall be a minimum of Three (3) ft. and a maximum of Three (3) ft.

Size and types of materials permitted for such fences and/or walls are shown on the District Plan. Fences and/or walls shall be either solid and view obscuring or open and view permitting as required by the District Plan. **NOTE:** Any fence heights exceeding the preceding requirements shall be subject to Section 59-38(11), Overheight Fences and Walls.

Will earthen berms or mounds be installed? Yes ☐ No ☒ Such earthen berms or mounds shall be landscaped and shown on the District Plan. The height of earthen berms or mounds shall be a minimum of N/A ft. and a maximum of N/A ft.

m. BOAT, CAMPER, TRAILER AND RECREATIONAL VEHICLE STORAGE

Boat, camper, trailer and recreation vehicle storage ☐ is ☒ is not permitted on the property. All such storage facilities shall be shown on the District Plan.

If boat, camper, trailer and recreation vehicle storage areas are permitted, screening fences **are required**. Such fences shall be **solid and view obstructing**. Fences shall be a minimum of N/A ft. and a maximum of N/A ft. in height.

MAXIMUM LENGTH OF BOAT, CAMPER, TRAILER AND/OR RECREATION VEHICLE PERMITTED: N/A.

n. DEDICATIONS AND IMPROVEMENTS

The owner understands that City ordinances and agency rules and regulations may require the dedication of additional street right-of-way and the construction of certain public improvements. **VACATIONS AND/OR DEDICATIONS MUST BE APPROVED PRIOR TO OR AT THE PUBLIC HEARING ON THIS PROPOSAL.** If this proposal involves the vacation of certain public rights-of-way for incorporation into the project area, contact the Public Works Department at 640-5405.

P.U.D. at

26 South Garfield Street

(Address)

o. EXTERNAL EFFECTS

Vibration, heat, glare, radiation and fumes shall be regulated by Section 59-81(a)(2) through 59-81(a)(5) of the R-2 zone district.

Reflective glass **may not** be used.

Every use, unless expressly exempted, shall be operated within a completely enclosed structure. ☒ Yes ☐ No

p. NATURAL TERRAIN

The existing grade of the site **will** be altered.

q. UTILITIES

Describe where the utilities (public and private) serving the property are located Sanitary sewer, electricity, telephone are located in the alley; water, storm sewer and natural gas are located in Garfield Street.

For information contact the following:

Denver Water Board	628-6100
U.S. West	451-2706
Public Service Company	571-6636
Wastewater Management	446-3590

r. SIGNS

The project is regulated by the following:

Section 59-537, Signs permitted in all districts
Section 59-538, Sign area measurement
Section 59- 548, Sign regulations for the R-2 zone district.

If no specific regulations are referenced above, please indicate the following:

MAXIMUM NUMBER OF SIGNS: Zero (0).
 MAXIMUM SIGN AREA: N/A.
 TOTAL MAXIMUM SIGN AREA: N/A.
 NUMBER OF GROUND SIGN AREA: N/A.
 NUMBER OF JOINT ID SIGNS ALLOWED: N/A.
 MAXIMUM SIGN AREA PER JOINT ID SIGN: N/A.
 TOTAL MAXIMUM JOINT ID SIGN AREA: N/A.
 TEMPORARY SIGNS ALLOWED: One (1).
 NUMBER OF CANOPIES AND AWNINGS: Zero (0).
 CANOPIES AND AWNINGS WILL BE BACKLIT? ☐ Yes ☐ No

NOTE: All ground, monument, and joint ID sign locations and setbacks must be shown on the District Plan.

s. **OUTDOOR STORAGE OF PRODUCTS, MATERIALS OR SOLID WASTE**

Outdoor storage of products and/or materials ☐ is ☒ is not permitted. If permitted, what products and/or materials are allowed? N/A.

Fences for outdoor storage areas shall be provided. Said fences are solid and shall be a minimum of N/A ft. and a maximum of N/A ft. in height.

Outdoor storage of solid waste is **not** permitted. If permitted, fences for such outdoor storage areas shall be provided. Said fences shall be solid and shall be a minimum of N/A ft. and a maximum of N/A ft. in height. Solid waste containers will be located in garages except on day of trash pickup.

NOTE: All outdoor storage areas must be shown on the District Plan.

t. **TRANSPORTATION**

The current traffic volumes on streets in or adjacent to the project must be shown on the Existing Conditions Map. These volumes are available for major streets from the Transportation Engineering Division (640-3958), the Planning Office (640-2736) or may be estimated by the applicant based on a professional traffic study. Streets for which no estimate is available should be so noted on the Existing Conditions Map.

The projected traffic volumes (current traffic volumes on streets in or adjacent to the project + site generated traffic) must be shown on the District Plan. Site generated traffic should be estimated based on the proposed project type, size, and other relevant factors. Ratios for estimating traffic are available in the Institute of Transportation Engineers reference books at the library.

For projects with total daily site generated traffic of more than 200 vehicle trips, or for projects in areas with special problems, a more detailed analysis may be required, and the applicant should contact the Transportation Engineering Division for further guidance.

PUBLIC TRANSPORTATION

The nearest bus stop is located (where?): SW Corner of Colorado Blvd. and 1st Avenue.

u. **SCHOOLS**

Future school sites **will not** be dedicated as a part of this project.

v. **HOME OCCUPATIONS**

Home occupations **are** permitted. If so permitted, home occupations shall conform to Section 59-80(7) of the R-2 zone district.

w. **USES BY TEMPORARY PERMIT**

Uses by temporary permit are regulated by Section 59-80(5)(a) of the R-2 zone district.

x. **ACCESSORY USES**

Accessory uses are regulated by Section 59-80(6)(a) of the R-2 zone district.

y. **INTERIM USES**

Prior to the development of this project, the property will be used on an interim basis for the following uses within the existing buildings: Per R-2 regulations.

z. **PHASING**

Will the project be developed in phases? ☐ Yes ☒ No If yes, specify the phasing and the improvements to be constructed in each phase. _____.

Anticipated starting date 2/1/99.

Anticipated completion date 10/1/99.

NOTE: A separate site plan review is required for all P.U.D.'s prior to obtaining zoning or building permits for construction. Contact the Zoning Administration (640-2191) for more details. This process may be started after the Planning Board hearing has been completed.

3. **WRITTEN STATEMENT**

On an attached page a written statement is given generally describing:

- a. The proposed P.U.D. and the market which it is intended to serve.
- b. The proposed P.U.D. and its relationship to the Denver Comprehensive Plan. Where the applicant's objectives are not in substantial conformance with the Denver Comprehensive Plan, the applicant should discuss the changing conditions that justify approval of the proposed P.U.D. District. For help on this contact the Planning Office (640-2736).
- c. How, the proposed P.U.D. District is to relate to the character of the surrounding neighborhood.

P.U.D. at 26 South Garfield Street
(Address)

4. EXISTING CONDITIONS MAP

The Existing Conditions Map is attached following the written statement described above.

5. DISTRICT PLAN

The District Plan is attached following the Existing Conditions Map.

This application includes the following listed and attached drawings or renderings:

- ☐ architectural concepts
- ☒ building elevations
- ☐ facade treatments
- ☐ exterior building materials
- ☐ landscape plan
- ☐ and/or other important features (list): _____

6. ACKNOWLEDGMENT

The applicant for this P.U.D. is the owner or owners of all the property contained within the proposed P.U.D. District or is the agent for the owner or owners of all the property contained within the proposed P.U.D. District. NOTE: Agents must supply proof of agency from the owner or owners of the property at the time of application.

The applicant understands that vested property rights shall be created ninety (90) days after the approval of this District Plan by the Denver City Council. These vested property rights shall remain vested for a period of three (3) years in accordance with Section 59-29.

Maximum Building Height					
Stories	2 stories	Feet	36		

NOTE: FOR COMPLETE PUD REQUIREMENTS, REFER TO APPLICATION #

PUD at 26 South Garfield Street

3a) The Proposed PUD and the Market it is Intended to Serve

This PUD proposes the construction of four (4) townhomes on 12,512.5 square feet of land in the Cherry Creek East neighborhood. Each townhome will contain approximately 2,700 square feet with additional attached 2-car garages. The townhomes will be 2 bedroom, 2-1/2 baths with a den/bedroom option. Included will be an unfinished lower level with the option to finish a family room and one additional bedroom. Sales prices are estimated to be in the \$375,000-\$450,000 range.

Cherry Creek East has seen a dramatic increase in new development over recent years which has been rapidly absorbed. It is the developers intention to provide quality housing at an reasonable price directed toward a market including "empty nesters," younger professionals with no or one child, who could grow into this product, and semi-retired professionals who could work from home and still have an office elsewhere.

3b) PUD Relationship to the Comprehensive Plan

The proposed PUD is consistent with the Cherry Creek East Neighborhood Plan. It closely follows the guidelines set forth in the checklist provided by Denver Planning. It incorporates "Cherry Creek" architecture, including use of ornamental concrete and stucco. It contains an Italian/early American look using steep roof pitches, appropriately scaled windows and bays. It emphasizes entries, varies wall plans, and varies roof forms and features – all desirable within the comprehensive plan.

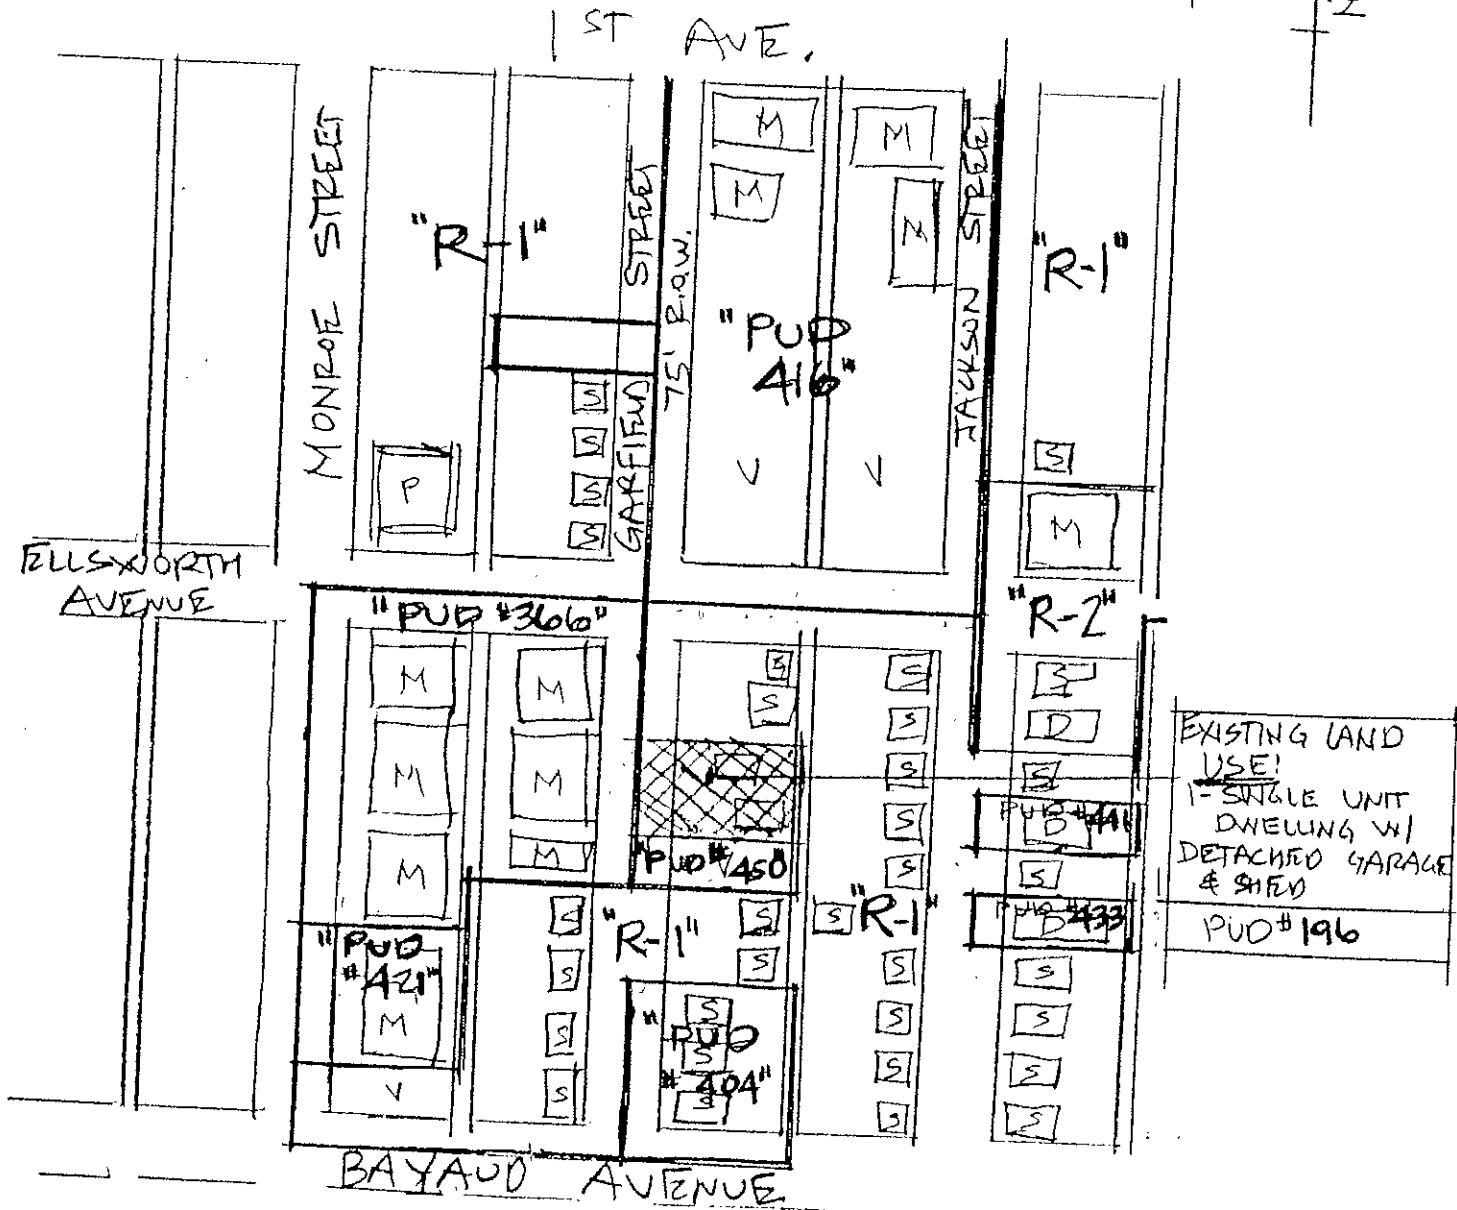

3c) How the PUD is to Relate to the Character of the Surrounding Neighborhood

This PUD will replace one older, one story residence on Garfield Street and replace it with four attractive new townhomes. These townhomes are compatible with the older, more traditional homes in Cherry Creek North and the Hilltop neighborhood. There is an emphasis on a residential streetscape with the front façade along with front courtyards designed to encourage pedestrian interest and interaction. Auto access is through the alley at the rear and pedestrian access at the front, creating a "street friendly" approach. The proposed PUD will enhance the overall streetscape of Garfield Street and continue the existing development within Cherry Creek East and provide desirable housing to families/professionals.
