Review of DPD Responses to the George Floyd Demonstrations

George Floyd Review Update

- In early June 2020, the OIM received two letters from City Council members requesting that the OIM review the DPD's responses to the George Floyd demonstrations in Denver. The OIM accepted.
- The OIM shared comprehensive requests for information. From the DPD:
 - Policy and training documents for crowd control and use of force
 - All body-worn camera, HALO, and helicopter videos
 - Complete audio recordings of all police radio channels used
 - Operational plans, rosters, and after-action reports
 - All officer statements, use of force reports, and crowd dispersal orders
 - Inventories of all less-lethal equipment and munitions used
 - Training and certification records for officers who used less-lethal equipment
 - All reports of injury to officers and community members
 - All arrest data

George Floyd Review Update

- From other Departments:
 - Information from Denver Health, the Denver Fire Department, and the Denver Sheriff Department about their activities during the demonstrations
 - Documentation about all outside jurisdictions, the support they provided, and the equipment they used
- During the summer, the OIM reviewed most of this voluminous material. We also conducted dozens of interviews and are now preparing our findings and conclusions.

Outreach and the Youth Outreach Project

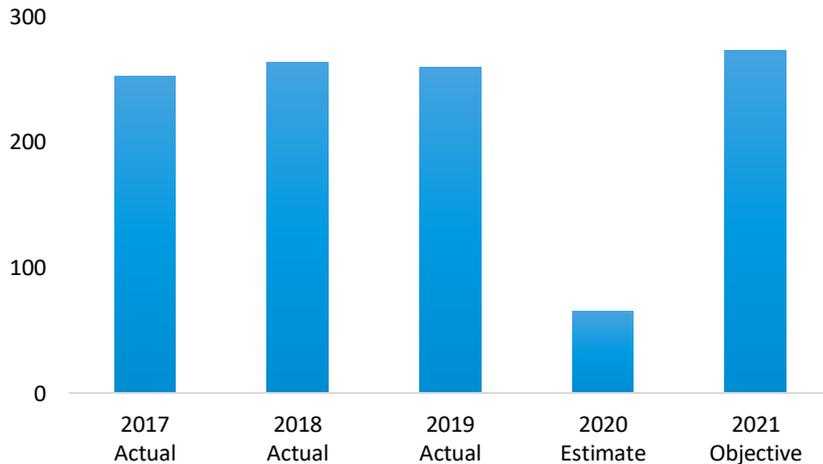

Outreach and YOP

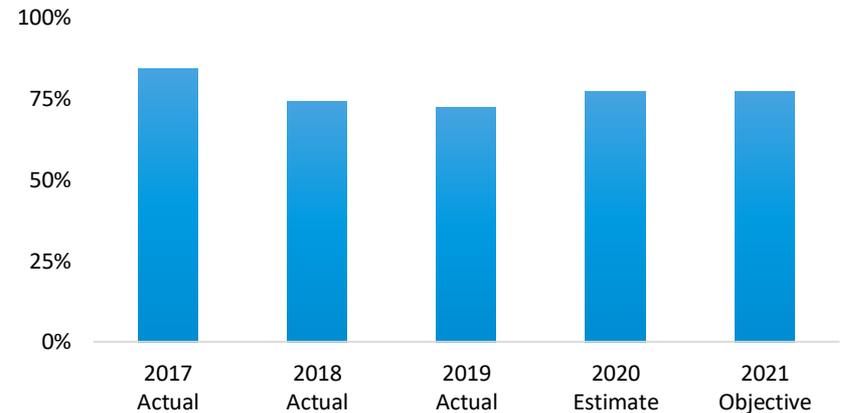

Key Metrics

- Conducting regular outreach to community and law enforcement through forums, neighborhood meetings, and other events
- Training officers on adolescent development and de-escalation techniques geared toward youth and educating youth about their rights and responsibilities when in contact with law enforcement

Number of Outreach Events

Percentage of YOP Participants whose trust in DPD increased
