Consistency with Adopted Plans: Blueprint Denver 2019

General Urban Context

- Development should be sensitive to the existing neighborhood character and offer residents a mix of uses, with good street activation and connectivity
- Multi-unit residential is the most common with some single-unit and two-unit residential, commercial and mixed-use embedded
- Commercial uses occur in a variety of building forms

Consistency with Adopted Plans: Blueprint Denver 2019

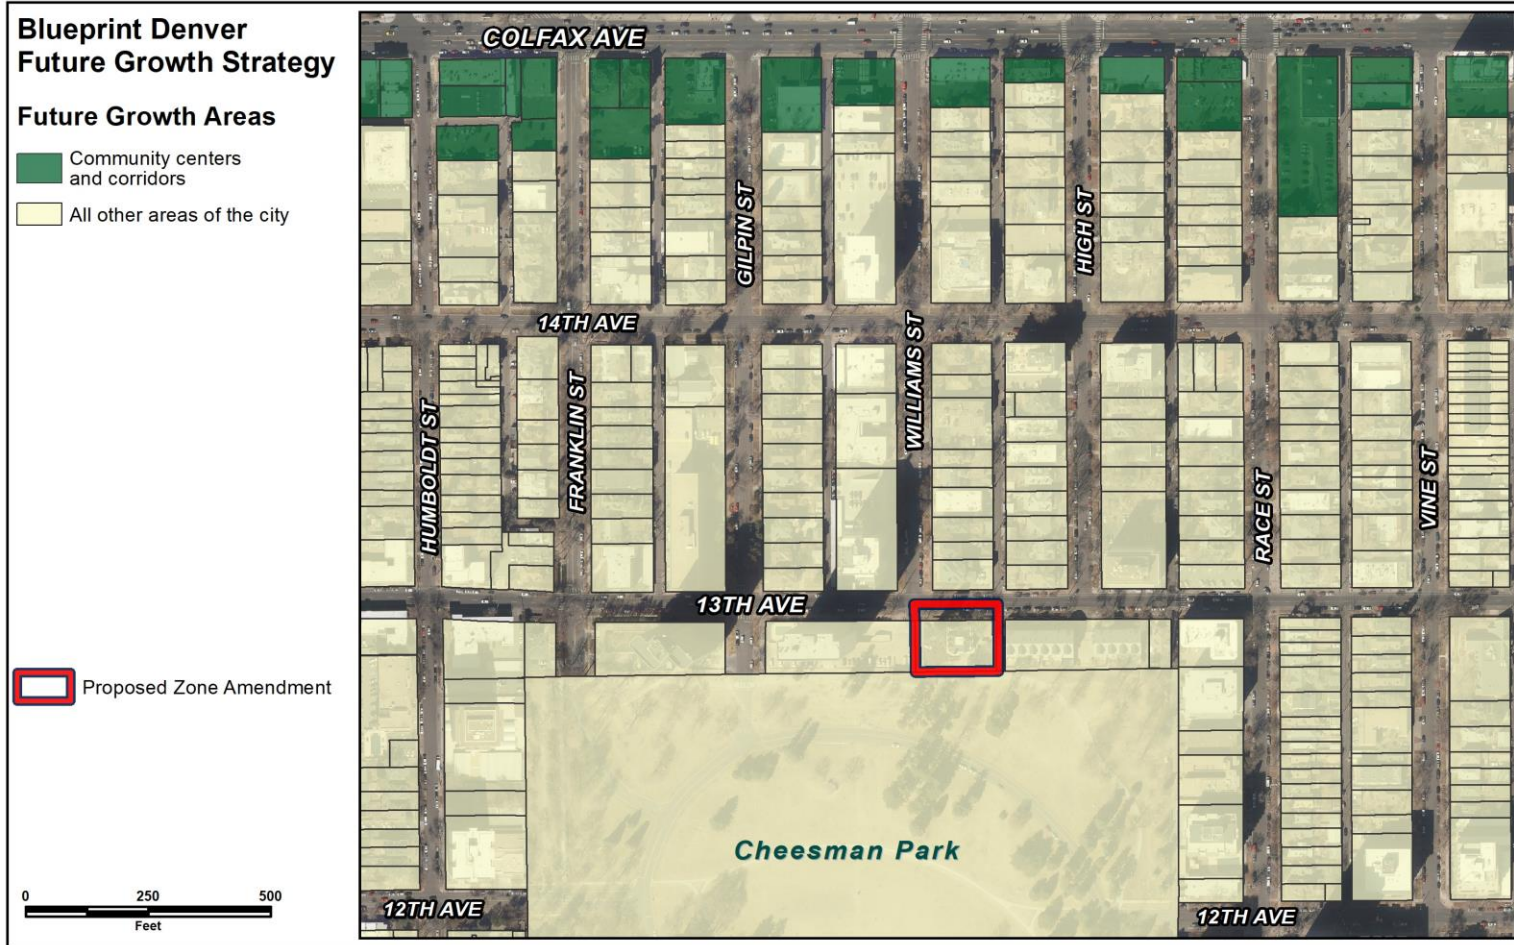

High Residential

- Predominately multi-unit residential, though compatible commercial uses should be interspersed throughout
- Buildings are generally the tallest of the residential places in this context

Residential Arterial Street

- Designed for the highest amount of through movement and the lowest degree of property access
- Primarily residential uses, but may also include schools, civic uses, parks, small retail nodes and other similar uses

Consistency with Adopted Plans: Blueprint Denver 2019

- Growth Areas Strategy
 - All other areas of the city
 - 10% of new jobs
 - 20% of new housing

Consistency with Adopted Plans: Blueprint Denver 2019

- Strategies
 - Land Use and Built Form: General Policy 2, Strategy E: *In historic areas, balance efficiency with preservation through strategies that encourage the reuse of structures*
 - Land Use and Built Form: Design Quality and Preservation Policy 2, Strategy A: *Continue the city's commitment to existing historic districts and landmarks and use historic designation to preserve the character of an individual structure or district or where there is historic, architectural, cultural, and/or geographic significance*
 - Land Use and Built Form: Design Quality and Preservation Policy 2, Strategy I: *Promote incentives to preserve the reuse of historic buildings and the unique historic features of Denver's neighborhoods*
- Custom Zoning
 - Limit the use of site-specific, customized zoning tools—such as Planned Unit Developments (PUDs) and waivers/conditions—to unique and extraordinary circumstances
 - Custom zoning tools are most effective when a standard zone district does not exist to implement the adopted plans for an area

Consistency with Adopted Plans: East Central Area Plan

- General Urban High Residential
- Encourage renovations and additions instead of demolition in residential areas
- Facilitate adaptive reuse of historic structures by allowing a broader range of uses, including compatible commercial uses, and appropriate additions
