**5. General description or background of proposed request. Attach executive summary if more space needed:**

The Denver Sheriff's Department currently uses the Syscon Justice Systems' Jail Management System called "TAG Elite". This is their core application used to manage the Downtown Detention Center and County Jail located on Smith Rd. As a part of this contract, Syscon provides technical support and maintenance of the application. This contract amendment will allow the Sheriff's Dept. to continue to pay for the support and maintenance services for one additional year. It is anticipated that this will be the last amendment needed for this service. The City conducted an RFP to replace TAG Elite and the new Jail Management System provided by the Act 1 Group dba ATIMS should go live in 2021. At that time, the Sheriff's Department will be completely transitioned off of the Syscon product and then solely be working with ATIMS under a different contract.
