Executive Summary

Throughout the COVID-19 pandemic, HOST has implemented a variety of programs and strategies to help ensure health and safety among individuals experiencing homelessness as well as to help reduce the spread of the virus throughout Denver. As the pandemic persists, HOST will continue to seek out agreements and amendments to address the ongoing needs of those experiencing homelessness in these unprecedented times.

The pandemic initially resulted in a 56 percent reduction in available shelter beds; as a result, HOST activated several different sheltering models to address the needs of Denver’s most vulnerable citizens. Auxiliary shelter sites were stood up to accommodate a decrease in existing shelter capacity; auxiliary sites and some existing sites were transformed into 24/7 models, to provide those experiencing homelessness with a safe location to shelter in place. Other shelters were adjusted to accommodate physical distancing and other requirements.

HOST has also secured over 800 hotel and motel rooms during the pandemic for people experiencing homelessness. This effort includes Protective Action rooms for individuals who are considered at high risk for COVID-19. In addition, Activated Respite rooms are available for unhoused individuals who are experiencing symptoms of COVID-19, are awaiting test results, or are otherwise advised to isolate. These rooms offer high-risk and medically referred individuals not only shelter and meals but also connections to services and supports to help them navigate the housing or sheltering systems upon their exit from the hotel/motel program.

HOST has also coordinated with partners to offer COVID-19 testing for vulnerable populations through street outreach, at shelters, and in protective action. Through these efforts, HOST has continuously collaborated with new and existing partners to ensure that persons experiencing homelessness are receiving the best and most efficient care possible. Other supports for unsheltered individuals have included improvements to public toilet and handwashing access, expanded street outreach, and a Request for Proposals for temporary managed campsites, which is currently underway.

The purpose of this contract amendment is to continue to engage with Bayaud Enterprises Inc. to provide additional shelter staffing, client transportation and meal delivery support for auxiliary shelters during the COVID-19 emergency. The current contract allows flexibility to reduce and/or adjust services during the extended period if appropriate to respond to emergent sheltering needs.
