### 5. General description or background of proposed request. Attach executive summary if more space needed:

This contract with CenturyLink Communications LLC (CenturyLink) has allowed the Business Technologies Division at Denver International Airport (DEN) to procure telecommunications services and professional services on an as-needed basis for high-speed internet, Synchronized Optical Network (SONET) managed network services, Distributed Denial-of Service (DDoS), 1FB and PRI, and web hosting services. Services procured under this contract are paid for out of Business Technologies annual O&M budget. Business Technologies centrally manages all costs related to telecommunications services for DEN. This 1st amendment is requested to provide continuity of services under the current contract utilizing the term extensions as allowed for in the original contract and add dollars to the maximum contract liability for these two additional years.

### 6. City Attorney assigned to this request (if applicable): Kevin Cain

### 7. City Council District: District 11

**Scope of work:**

CenturyLink Communications LLC (CenturyLink) provides the following services to DEN under existing contract and service exhibits - telecommunications services and professional services on an as-needed basis for high-speed internet, Synchronized Optical Network (SONET) managed network services, Distributed Denial-of Service (DDoS), 1FB and PRI, and web hosting services. These services are critical to the day to day operation of the airport and provide DEN with the necessary communications and IT services. Currently, CenturyLink Communications is the only provider available for large scale high-speed internet services at the airport. Prior RFP efforts have tried to court other providers into offering this service at DEN. The City is currently conducting an RFP for high-speed internet and DEN expects to utilize that award at some point in the future. Recently, a SONET replacement RFP was issued and awarded under a new contract. As that project comes online, those services will drop out of this contract. Additionally, some telephony services were awarded to Allstream Business US Inc. under a competitive RFP process in 2017. This contract provides continuity of services for remaining services still required, but not in scope under other contract awards.

**Was this contractor selected by competitive process?** No
