## 5. General description or background of proposed request; include attached executive summary if more space needed:

Building on response capacity established during COVID-19 pandemic to eliminate health disparities among racial and ethnic populations in the City and County of Denver using these strategies:

- Expand existing and/or develop new mitigation and prevention resources and services to reduce COVID-19 related disparities among populations at higher risk and that are underserved
  - Example: Expand mobile/pop-up clinics in most impacted neighborhoods
- Increase/improve data collection and reporting for populations experiencing a disproportionate burden of COVID-19 infection, severe illness, and death to guide the response to the COVID-19 pandemic
  - Example: Enhance testing and contact tracing data collection and reporting capability
- Build, leverage, and expand infrastructure support for COVID-19 prevention and control among populations that are at higher risk and underserved
  - Example: collaborate with the community to provide input and guidance on policies and communications associated with COVID and other health emergency response.
- Mobilize partners and collaborators to advance health equity and address social determinants of health as they relate to COVID-19 health disparities among populations at higher risk and that are underserved
  - Example: Create and support community health worker (CHW)/peer navigator program

DDPHE will collaborate through existing relationships with various community groups and create new opportunities to collaborate with additional stakeholders to provide this programming in the city- exact locations to be determined.

**Scope of work:**

DDPHE will utilize funding provided by this grant to work with Denver Public Health and partners in the community to expand strategies for addressing inequities associated with COVID-19 and to extend this work to eliminate health disparities in the future. This funding also will help cover the costs of providing direct financial support, information, training and other assets to community partners in support of collective efforts to eliminate health disparities.

DDPHE has supported populations most impacted by COVID-19. In doing this work, DDPHE created an infrastructure that will serve as the foundation for its continued response and recovery efforts, and its on-going work to eliminate health disparities. This funding also will support DDPHE’s efforts to ensure the accuracy and efficacy of data in capturing the real experience of people living in communities most impacted by COVID-19, and to use this data to inform its work and provide information that can be used by organizations and people in communities.
