

DEPARTMENT OF AVIATION

CITY COUNCIL ORDINANCE REQUEST SUMMARY

On-Call Systems Development Services

Purpose and Use of Agreements

This request is for a single award to a consultant to provide support to the Airport Infrastructure Management (AIM) Development division developing business processes and software systems to enhance and integrate them in order to improve Denver International Airport's (DEN) ability to deliver on-time and on-budget projects, with real-time access to project information and status while minimizing the costs associated with the implementation of the Capital Improvement Program (CIP). The consultant's employees at DEN have expertise in business processes enhancement, software design and implementation, systems integration, systems maintenance and organizational change management. The requested budget is for the total contract term including extension options.

Contract Description

There is one On-Call Systems Development contract in this submittal. The Contract has a term of three years with two 1-year options to extend and it is set to commence from the date of execution of the contract. The contract has a maximum contact value of \$5,000,000.00

Vendors

Enstoa Inc. 202157562
