Vendor/Contractor Name (including any "DBA"): Trihydro Corporation

Type and Scope of services to be performed:

This contract amendment will add two years to an existing contract that provides environmental, engineering, scientific or other necessary services (including furnishing all labor and tools, supplies, equipment, oversight, superintendence, materials and everything necessary for and required to perform and complete the services authorized by a notice to proceed, including any changes thereto) as requested to supplement the Division of Environmental Quality's (DEQ) work efforts in: 1) environmental site assessment; 2) brownfields redevelopment; 3) leaking underground storage tank removal, investigation and remediation; 4) remediation and oversight and 5) environmental litigation support. The amendment allows DEQ to continue using this contractor under the existing contract. The increase in contract value to allow DEQ to use this contractor to continue work on a multi-year project associated with soil contamination at a City owned facility. The work involves sampling, engineering design, and cost estimation for a potential cleanup of affected soils in late 2023 or early 2024 that will impact operations at the Denver Fire Training Facility.
