**A resolution approving a proposed Contract between the City and County of Denver and Cyber Country Systems, LLC concerning the Physical Access Control (PAC) System at Denver International Airport.**

Approves a contract with Cyber Country Systems, LLC for \$1,260,000 and for three years, with two one-year options to extend, to service and support the Physical Access Control (PAC) System, including the provision of services for the current Card Access Integrated Security System and its associated components at Denver International Airport (202158652). **Affected Council District(s) or citywide?** Council District 11

**Contract Control Number:** 202158652

**Vendor/Contractor Name (including any "DBA"):** Cyber Country Systems, LLC

**Type and Scope of services to be performed:**

This request is for the approval of a sole source contract with Cyber Country Systems, LLC (CCS). CCS is the service and support provider of Denver International Airport's (DEN) Physical Access Control (PAC) System. These services have been in continuous use for over 25 years. This includes the provision of services for the current Card Access Integrated Security System, its associated components and on-site / on-call site support. The PAC System is highly proprietary and customized which has been critical to the airport's security posture, however, as the system nears the end of its useful life, DEN is pursuing a complete, airport-wide upgrade, which is tentatively scheduled for Q4 of 2024. During this transition, DEN requires CCS to continue providing software support, technical support, hardware support and system documentation. This contract with CCS is necessary for DEN to remain compliant with Federal security requirements and associated Airport Security Program as approved by the Department of Homeland Security and Transportation Security Administration (TSA).
