Air General Inc.

Type and Scope of services to be performed:

This request is for a Support Facilities Lease Agreement between Air General Inc. (Air General) and the City and County of Denver at Denver International Airport. Air General leases 16,777 sq. ft. of space in the Joint Use Cargo building and 54,488 sq. ft. of ground space. This lease will provide them with a new term for the facility they occupy. Air General is a cargo handler serving several passenger airlines at Denver International Airport (DEN); e.g., British Airways, Delta Airlines and American Airlines. They lease space at the Joint Use Cargo Building to handle belly cargo.

Airline rates and charges are established on "cost recovery" concepts whereby the annual cost of operating DEN forms the basis for the rate, fee, or charge assessed to the airlines. The Airport recalculates airline rates and charges each year based on its operating budget, debt service, amortization and projected aviation activity levels and reconciled at year-end based on actuals "true-up." The airline/airport use and lease agreement specifies the types of costs that are used to calculate airline rates and charges. Examples of rates and charges include landing fee (fee for every time a plane lands on the runway), Terminal Complex rental rate (Per square foot rate to lease space in the Terminal (e.g., office, holdroom, ticketing)), concourse ramp, fee to recover the cost of leasing the ramp area associated with a gate, Automatic Guideway Transportation System (Passenger fee to use the train system between the terminal and concourses).
