Affected Council District(s) or citywide? Council District 7

Contract Control Number:

Vendor/Contractor Name (including any "DBA"): JAMES R. HOWELL & CO., INC., dba HOWELL CONSTRUCTION

Type and Scope of services to be performed:

The Wastewater Building currently houses a number of Department of Transportation staff and operations including Wastewater, Solid Waste, Street Maintenance, Infrastructure Project Management, Right-of-Way Services and Safety. The existing facility was built and occupied in the early 1990's with minimal improvement over the years. The existing facility is unable to accommodate staff growth for all agencies in its present interior office layout. Additionally, the building engineering systems are at their maximum capacity and require improvements to maintain performance.

The scope of this contract is for the remodel of the interior spaces on floors 3, 4, & 5. The project will implement City of Denver workplace standards to optimize space utilization and accommodate future staff growth for all agencies housed in the facility. The scope of work will also include improving building security, bringing the remodel spaces up to current code, LEED, and ADA compliance and addressing some deferred maintenance in the building engineering systems.
