Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

As part of the Mayor's response to City Council's 2020 Budget requests, he committed to identifying \$200,000 in 2019 budget savings to support a speed study to ensure safe mobility and transportation options for all modes. The study will make recommendations regarding possible speed limit modifications.

Savings has been identified in the Public Works appropriation to address this need. This ordinance rescinds \$200,000 from the Public Works General Fund appropriation and re-appropriates that amount to the Capital Improvements and Capital Maintenance Fund: 31050-501100-PU009 Speed and Safety Study.
