#### **Executive Summary with Rationale and Impact:**

Detailed description of the item and why we are doing it. This can be a separate attachment. At the request of Denver International Airport, it is proposed to create three new classifications; Fire Alarm Technician, Fire Sprinkler Technician, and Millwright. This request will provide additional classifications whose work are common trades areas with specific education, experience, and licensure or certification requirements that are not currently captured in the classification and pay plan. These new classes will allow management to attract and retain the most skilled and qualified employees.
