**Affected Council District(s) or citywide?** CD 11

**Contract Control Number:** 201734681-00

**Vendor/Contractor Name (including any "DBA"):** Thyssenkrupp Elevator Corporation

**Type and Scope of services to be performed:**

There are over 300 conveyance units at DEN that are at or past their useful life expectancy and need to be addressed. TKE will prioritize the effort, streamline the process and start the program with the critical units first. The best solution is a process called modernization. This process stops short of a total replacement which is costlier and time consuming. Modernization is the process of upgrading the critical parts of the unit with modern technology, increasing performance, improving safety, and providing an up-to-date appearance. The only portion that is left is the significant structural components that can be reused. This is the most cost-effective method of updating a conveyance unit.
