Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

In November 2020, Denver voters approved Referred Measure 2A, which increased the sales tax rate by 0.25% starting January 1, 2021 to be spent on various programs and projects that address climate change. Job Ordinance CB20-1413 established the Climate Protection Special Revenue Fund, Fund Number 11880 in the General Government Series, to receive the sales tax revenue from the incremental increase and to administer the program. As revenues in Fund 11880 may also be used for capital improvements, a new, companion Capital Projects Fund is needed for expenditures of that purpose.

This ordinance requests the creation of a new capital improvement project fund within the Capital Improvement and Maintenance Fund Series. Fund 34804 titled Climate Protection Capital Projects will be for expenditures planning, design, and construction of capital improvements for climate action, sustainability, and resiliency projects. The expending authority will be the Office of climate Action Sustainability and Resiliency. The fund will be appropriated and non-lapsing.
