Type and Scope of services to be performed:

HOPWA funds are used for a wide range of housing, social services, program planning, and development costs. These include, but are not limited to, the acquisition; rehabilitation; or new construction of housing units; costs for facility operations; rental assistance; and short-term payments to prevent homelessness.

An essential component in providing housing assistance for this targeted special needs population is the coordination and delivery of support services. Consequently, HOPWA funds also may be used for services including assessment and case management, substance abuse treatment, mental health treatment, nutritional services, job training and placement assistance, and assistance with daily living.

Low-income persons at or below 8% AMI that are medically diagnosed with HIV/AIDS and their families are eligible to receive HOPWA-funded assistance.

Denver contracts with public and nonprofit providers to deliver HOPWA-funded services, including the Colorado Health Network.

HOPWA funds are relatively stable. HOPWA funds have increased 12% for Denver since 2011. Denver's 10-year summary of HOPWA fund allocations is as follows:
