Affected Council District(s) or citywide? Council District 11

Contract Control Number: 201840510-00

Vendor/Contractor Name (including any "DBA"): Bombardier Transportation (Holding) USA, Inc

Type and Scope of services to be performed:

Bombardier will provide all management, supervision, engineering, personnel, equipment, tools and all items and services necessary to support the replacement and installation of 80 doors for the Automated Guided Transit System (AGTS). This includes developing a completed set of engineered PE stamped design documents that are fully compatible with the existing infrastructure and develop sets of fabrication drawings to facilitate installation. The new doors that are to include replacement of the door header which includes belt drives, microprocessor controllers, 24VDC auto lock assemblies, 3 position dual purpose key switch assemblies and an integrated Passenger Counting System. Bombardier shall develop a schedule and coordinate the timeline for removal and installation of new doors with DEN.

Location (if applicable):

WBE/MBE/DBE goals that were applied, if applicable (construction, design, Airport concession contracts):

Are WBE/MBE/DBE goals met (if applicable)?

5% W/MBE

Is the contract new/a renewal/extension or amendment?

Was this contractor selected by competitive process? No If not, why not? There are no other contractors or designers that can design or perform services for the AGTS system. Based upon DEN's knowledge of the industry, the nature of the Denver Must-ride system, and the amount of on-going and planned work to this system, proceeding with Bombardier as the sole source contractor presents the lowest risk of impact to Airport Operations, the most workable solution, the required level of reliability and the provisions necessary to allow for the required upgrades to the system. Also, DEN has already approved a Professional Preference letter with regards to Bombardier being contracted for the AGTS Operations and Maintenance Contract. Based on this information and for this project to proceed in a reasonable and economical process, it is recommended that Bombardier be awarded the contract for designing and

engineering the necessary door modifications to this system
