Item Title & Description:

(Do not delete the following instructions)

*These appear on the Council meeting agenda. Initially, the requesting agency will enter a 2-3 sentence description. Upon bill filling, the City Attorney's Office should enter the title above the description (the title should be in **bold** font).*

*Both the title and description must be entered between the red "title" and "body" below. Do **not** at any*

time delete the red "title" or "body" markers from this template.

A bill for an ordinance making a rescission from and an appropriation in the Parks Legacy Capital Fund.

Approves the rescission and reappropriation of \$500,000 from the Parks, Trails, and Open Space Capital Fund to support resiliency focused capital improvement projects. The last regularly scheduled Council meeting within the 30-day review period is on 8-8-22. The Committee approved filing this item at its meeting on 7-5-22.

Affected Council District(s) or citywide? Citywide

Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

This ordinance request seeks approval to rescind \$500,000 in Parks, Trails and Open Space capital improvement funds originally intended to develop the Parks Resiliency Plan and reappropriates the funding to implement resiliency-focused capital projects. This is an administrative action to amend the eligible use of the funding from planning to implementation.

This ordinance request will appropriate budget as follows:

<u>FUND</u>	<u>COST CENTER</u>	<u>PROJECT</u>	<u>AMOUNT</u>
36045	7010000	RZ007 Resiliency - Natural Resources	\$500,000

Executive Summary

During the development of the Legacy Fund 5-year planning process in 2019, a need was identified for a Resiliency Master Plan. At the time, a scope for the planning initiative was undefined and \$500,000 was budgeted for the project.

After the approval of the 2020 Parks and Recreation budget, the impacts of COVID-19 forced many projects to be placed on hold. During this time, DPR worked closely with the CSU Salazar Center and the Office of Climate Action, Sustainability and Resiliency (CASR) to evaluate a scope for a citywide Resiliency Master Plan. It was determined that a large resiliency **planning** initiative would not accomplish the necessary actions needed given the urgency of our changing climate. Instead, based on the strategies already identified in the Denverright Plan and other city planning documents, including the Parks Department's Game Plan for a Healthy City, it was determined that **implementation** of climate action, mitigation, and adaptation should be prioritized at this time.

In order to immediately begin meeting the goals and objectives outlined in the Game Plan for a Healthy City, specifically water conservation and expansion of critical habitat, several projects were prioritized to move forward. Below are projects that will utilize the previously identified planning funding to begin much needed implementation on resiliency focused projects.

1. Update the Parks Landscape Typology data to prioritize projects that reduce potable water use for irrigation, restore native habitat, increase water conservation, and improve the health of lakes and waterways.
2. Fund the shoreline conversion project at Garland Park in partnership with DOTI to enhance water quality and create native habitat.

3. Fund the preservation of the cormorant rookery at Duck Lake, which is in severe decline and one of the only breeding grounds for this species in the region.

4. Fund lake aeration at Overland Park to prevent fish kills and algae blooms caused by poor water quality and extreme summer heat.
