Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

The Mayor’s Office and City Council are working in partnership to create a new office, headed by a Mayoral appointee who will directly advise the Mayor, to act with urgency to mitigate climate change, address climate resiliency and sustainability actions for the city. The office will focus on science-based strategies and alignment with recommendations from the Intergovernmental Panel on Climate Change and will build on the strong record of climate action and sustainability work previously housed in DDPHE. The office will also make equity a core value of all work and

metrics. This bill also makes conforming code changes to transfer over responsibility for climate and sustainability related programs.
