A resolution approving a proposed Eighth Amendatory Agreement between the City and County of Denver and Riskconnect ClearSight LLC to extend the term and increase the maximum contract amount for the Risk Management Information System software for the tracking of workers' compensation, automobile and property insurance claims.

Amends a contract with Riskconnect ClearSight LLC by adding \$1,210,000 for a new total of \$2,467,626 and five years for a new end date of 12-31-25 to provide Risk Management Information System (RMIS) software for tracking of the City's workers' compensation, automobile and property insurance claims, citywide (FINAN-202056357). The last regularly scheduled Council meeting within the 30-day review period is on 12-21-20. The Committee approved filing this item at its meeting on 11-3-20.

Affected Council District(s) or citywide? Citywide

Contract Control Number: FINAN-202056357

Vendor/Contractor Name (including any "DBA"): Riskconnect ClearSight LLC

Type and Scope of services to be performed:

Provides the Risk Management Information System (RMIS) solution through which the Risk Management Office adjust all claims overseen by the Risk office including Workers' Compensation, auto, property, and certain liability claims. Workers' Compensation claims, for which we are self-insured and self-administered, make up most claims in the system (55,354 of the 90,924 claims currently in the system). Such claims are managed with benefits processed per the requirements in the Colorado Workers' Compensation Act. The RMIS system contains all information required for the adjusting of a claim, including medical and injury information, personal data, and financial information such as salary. Analysis of losses, based on the captured data, is performed to identify trends and make informed decisions that mitigate future losses. Ad-hoc, monthly, quarterly, and annual analytics are generated for use in developing loss prevention strategies with Departments/Agencies.
