With this amendment, there have also been updates to the prevailing wage requirements, progress payments for work orders, add compliance with Denver wage laws, examination of records and audits, and security provision contract language. There is no additional time or money included in the amendment. The goal of the On-Call master contract is to procure multiple Small Business Enterprise (SBE) On-Call construction services contracts to establish a new group of qualified SBE On-Call general contractors to respond to proposal requests with bidding and execution of construction work for the City's infrastructure. The General Civil Construction On-Call contract will be utilized to construct a variety of improvements to the City and County of Denver's infrastructure typically within City Right-of-Way. The City desires to award multiple On-Call SBE construction services contracts, each with a maximum contract limit of \$5,000,000.00 for the three-year duration.
