A resolution approving a proposed Agreement between the City and County of Denver and SailPoint Technologies, Inc. for the purchase, installation and ongoing technical support of an on-premises solution.

Approves a contract with SailPoint Technologies, Inc. for \$2,010,572.14 and through 12-15-24 for the purchase, installation and ongoing technical support of the IdentityIQ Core Governance Platform, an employee access technology tool, citywide (TECHS-201952801). The last regularly scheduled Council meeting within the 30-day review period is on 3-16-20. The Committee approved filing this item at its meeting on 2-11-20.

Affected Council District(s) or citywide? Citywide

**Contract Control Number:** TECHS-201952801

Vendor/Contractor Name (including any "DBA"): SailPoint Technologies, Inc.

#### Type and Scope of services to be performed:

Technology Services is currently using the Oracle Identity Management platform (OIM). Identity Management should allow Technology Services to manage the access a City employee would have to City software systems like Workday. For example, if an employee were to retire or leave

File #: 20-0114, Version: 1

the City, the OIM platform would automatically remove their access. Technology Services has found the Oracle OIM platform to be difficult to administer and develop on and is not meeting our technology needs. Also, if the City were to stay on the current Oracle system, Technology Services would be required to perform a large upgrade and renew support from Oracle at a substantial cost.

Technology Services is strategically modernizing the identity program by implementing SailPoint for Identity Management including provisioning access for employees. SailPoint contains governance and auditing tools to ensure all 17,000 City employees have access to what they need when they need it. SailPoint also provides tools to remove access when it is not needed in the example of an employee transfer.

The move to the SailPoint solution will result in alignment on fewer platforms thus providing an optimized solution that would allow ongoing support to be managed by Technology Services. This move will make the City more secure and will align with industry standards. **Location (if applicable):**
