**A resolution approving a proposed Amendatory Agreement between the City and County of Denver and SavATree, LLC to add compensation and a new end date for Emerald Ash Borer pesticide application services.**

Amends a contract with SavATree, LLC by adding \$460,000 for a new total of \$880,000 and one year for a new end date of 12-31-20 for Emerald Ash Borer ("EAB") pesticide application services for ash trees located on publicly owned property, citywide (201845227). The last regularly scheduled Council meeting within the 30-day review period is on 3-16-20. The Committee approved filing this item at its meeting on 2-11-20.

**Affected Council District(s) or citywide?** Citywide

**Contract Control Number:** 201845227

**Vendor/Contractor Name (including any "DBA"):** SavATree, LLC.

**Type and Scope of services to be performed:**

SavATree performs Emerald Ash Borer ("EAB") pesticide application services for ash trees

located on publicly owned property. Forestry's goal is to slow Emerald Ash Borer population growth, which in turn slows the rate at which tree mortality advances. Insecticide treatments are more viable in residential or urban areas where trees are readily accessible. Cumulative economic costs of treatment were at least fourfold lower than costs of removing and replacing trees as they declined. Denver has an estimated 330,000 ash trees, a large and important portion of our urban tree canopy. The objective of the contract is to treat approximately 30% of treatable Public Right-of-Way (PRW) ash trees annually.
