Contract Control Number: FINAN-202054524

Vendor/Contractor Name (including any "DBA"): Colorado Department of Public Safety

Type and Scope of services to be performed:

The City and County of Denver has received \$3,758,237.10 in FEMA Covid-19 Public Assistance funds from the Colorado Department of Public Safety to support costs associated with the administration and distribution of Covid-19 vaccines.

This funding will support costs associated with three key elements of Denver's vaccination strategy: 1) mobile vaccination teams responsible for vaccinating at-risk populations and/or those unable to easily access the healthcare system; 2) community points of dispensing to provide vaccines to eligible residents in communities most impacted by COVID-19, where vaccine access has been limited, to help address critical place-based needs; and 3) outreach and communications costs associated with disseminating timely information about the vaccines.

Note that this funding is primarily intended to address Denver's initial outlay of costs over the first 90 days of the rollout of the City's vaccination efforts. The Department of Finance will work closely with City agencies to transfer eligible costs to this funding source, just as was done for other elements of the FEMA Public Assistance grant program, such as PPE, testing, shelter and emergency operations center expenses.
