Contract Request Template (Contracts; IGAs; Leases)

Date Submitted: 4-24-18

Requesting Agency: Denver International Airport

Item Title & Description:

(Do not delete the following instructions)

*These appear on the Council meeting agenda. Initially, the requesting agency will enter a 2-3 sentence description. Upon bill filling, the City Attorney's Office should enter the title above the description (the title should be in **bold** font).*

*Both the title and description must be entered between the red "title" and "body" below. Do **not** at any time delete the red "title" or "body" markers from this template.*

A resolution approving a proposed First Amendment between the City and County of Denver and Telos Identity Management Solutions, LLC concerning professional services for Designated Aviation Channeler (DAC) software at Denver International Airport.

Amends a contract with Telos Identity Management Solutions, LLC by adding \$1,320,000 for a new total of \$2,920,000 and two years for a new end date of 5-31-20 for software used to manage the protected personal identifying information for badge holders and their access at Denver International Airport (201208848-01). The last regularly scheduled Council meeting within the 30-day review period is on 6-4-18. The Committee approved filing this resolution by consent on 5-2-18.

Affected Council District(s) or citywide?

Contract Control Number: 201208848-01

Vendor/Contractor Name (including any "DBA"): Telos Identity Management Solutions, LLC.

Type and Scope of services to be performed:

Airport Security needs to maintain the current Designated Aviation Channeling (DAC) vendor through the first year of implementation of the new Identity Management System (IDMS). This contract amendment is needed as Airport Security transitions into a new IDMS that relies heavily on real-time employee background data streaming from the current DAC vendor (Telos). The increase to the maximum liability is needed for the additional two (2) years at current rates which includes processing Criminal History Records Checks (CHRC), Security Threat

Assessments (STA), and Rap Back enrollments.

The Identify Management System is the software that Airport Security uses to manage the protected personal identifying information for each of the Airport's ID badge holders and their access to the airport's physical access control system. The new Identity Management System software captures the badge holder's personal information to send to the Designated Aviation Channeler, Telos. All of these functions are required and regulated by the Transportation Security Administration (TSA) for the issuance of Airport ID badges.

Location (if applicable):

WBE/MBE/DBE goals that were applied, if applicable (construction, design, Airport concession contracts):

Are WBE/MBE/DBE goals met (if applicable)?

Is the contract new/a renewal/extension or amendment?

Was this contractor selected by competitive process or sole source?

For New contracts

Term of initial contract:

Options for Renewal:

How many renewals (i.e. up to 2 renewals)?

Term of any renewals (i.e. 1 year each):

Cost of initial contract term:

Cost of any renewals:

Total contract value council is approving if all renewals exercised:

For Amendments/Renewals Extensions:

Is this a change to cost/pricing; length of term; terms unrelated to time or price (List all that apply)?

If length changing

What was the length of the term of the original contract? Five years

What is the length of the extension/renewal? Two years

What is the revised total term of the contract? Seven years

If cost changing

What was the original value of the entire contract prior to this proposed change?

\$1,600,000

What is the value of the proposed change? \$1,320,000

What is the new/revised total value including change?

\$2,920,000

If terms changing

Describe the change and the reason for it (i.e. compliance with state law, different way of doing business etc.)
