A resolution approving a proposed Third Amendatory Agreement by and between the City and County of Denver and Q-Matic Corporation to extend the term, increase funding for support and maintenance

services and add new functionality.

Adds \$525,000 and 10 months to the contract with Q-Matic Corporation for a new total of \$1 million through 10-31-20 and expands the services for the enterprise customer queuing application, equipment, and professional services agreement (201310119-03). The last regularly scheduled Council meeting within the 30-day review period is on 2-26-18. The Committee approved filing this resolution by consent on 1-2-18.

Affected Council District(s) or citywide? Citywide

Contract Control Number: 201310119-03

Vendor/Contractor Name (including any "DBA"): Q-Matic Corporation

Type and Scope of services to be performed:

The Office of the Clerk and Recorder (OCR) entered into an agreement with Qmatic Corporation in 2013 as result of a competitive RFP process conducted by Purchasing. Since the RFP process, Excise and License, Community Planning and Development, Motor Vehicle and Treasury have used this solicitation to implement Q-Matic queueing systems within their own departments.

Along with the need for ongoing maintenance and support for all the agencies through 10/31/2020, the catalogue of available products and services related to the queueing application will be amended and updated. There is also contingency built in to the amended dollar amount for additional agencies that may benefit from a customer queuing solution in the future. The benefits gained on this application include, but are not limited to:

- Increase customer service by directing customers to the appropriate customer service representatives
- Online capability to schedule appointments
- Immediate insight into customer satisfaction through survey units
- Ability to run performance reports including reports on customer wait time, transaction time, number of customers served, and summary data of ratings received from customers

The overall goal is to provide a vehicle for agencies to continue to migrate the disparate queueing solutions onto the enterprise solution by Qmatic and to have Technology Services provide oversight for the enterprise solution.
