Contract Control Number: TECHS-201737523-00

Vendor/Contractor Name (including any "DBA"): VertiQ Software, LLC

Type and Scope of services to be performed:

The mission of the City's Office of the Medical Examiner (OME) is to establish credibility in death investigation in a system that will operate efficiently and serve the needs of the department and the community. OME provides guidance and support to the County Medical Examiner who must investigate any and all violent, suspicious, and unexpected natural deaths that occur within this jurisdiction. OME also provides forensic autopsy, investigative, and consultative services when requested to do so by County Medical Examiner personnel and law enforcement agencies. The ultimate goal of the forensic investigation and autopsy is to develop logical, scientific, and unbiased information necessary to determine the cause and manner of death for proper and accurate completion of the death certificate. The autopsy report, evidence collected, and court testimony provided are critical to both civil court and murder trials.

This objective of this contract is to supply the Denver County Medical Examiner with the most up to date Case Management software application available through a cloud hosted solution designed for a Medical Examiner agency, incorporating the requirements as outlined in the RFP originating this purchase.

There are several core business needs driving the decision to pursue a workflow-driven, scalable Coroner/Medical Examiner Case Management System.
