File #: 16-0081 **Version:** 1

Type: Resolution **Status:** Adopted

File created: 2/11/2016 **In control:** Consent

On agenda: 2/11/2016 **Final action:** 2/22/2016

Title: Amends a contract with Innovative Electronic Designs (IED) by adding \$319,047 for a new total of \$796,979 and by extending 5 years to 3-1-21 for maintenance services of the Emergency Communications System equipment manufactured by IED at Denver International Airport (PLANE 201102921-00). This amendment will allow IED to continue to provide extended warranty, scheduled replacement, preventive maintenance, repairs, on-call and on-site emergency technical support for all Emergency Communications System (formerly known as Voice Paging System) equipment manufactured by IED. These services are all being provided now by our existing contract with IED. This contract amendment seeks to continue the same level of support for another 5 years. It covers all existing equipment and software manufactured by IED and it will seamlessly cover IED equipment installed at the HTC and that associated with the ECS Upgrade Project as their warranties expire.
