**A resolution approving a proposed Amendatory Agreement between**

**the City and County of Denver and Rave Wireless, Inc. to increase funds, extend the amount, and add licenses for Smart911 used by 911 dispatchers.**

Amends a contract with Rave Wireless, Inc. by adding \$725,586.76 for a new total of \$1,110,661.76, adding five years for a new end date of 6-30-25, and adding licenses for Smart911 used by 911 dispatchers for access to a secure national database of Smart911 citizen profiles in which members of the community register and provide information about themselves, their family members, their homes and workplaces, medical conditions, and other pertinent information to improve response effectiveness, citywide (TECHS - 201520827). **Affected Council District(s) or citywide?** Citywide

**Contract Control Number:** TECHS - 201520827

**Vendor/Contractor Name (including any "DBA"):** Rave Wireless, Inc.

**Type and Scope of services to be performed:**

This amendment will allow Denver 911 to continue to use the Smart911 software. This software allows access to a secure national database of Smart911 citizen profiles. This amendment is to add licenses, extend the term and increase the contract amount. The Smart911 software allows members of the community to register and provide information about themselves, their family members, their homes and workplaces, medical conditions, and other pertinent information. Smart911 will provide call takers, dispatchers and first responders with additional critical caller data about subscribed callers in order to speed response times and improve response effectiveness. Includes integration of the Smart911 service into the Public Safety Answering Points, configuration of the hosted Smart911 service, access to the Smart911 First responder/dispatcher portal and installation of the Smart911 client on selected workstations. Denver911 plans to use this type of technology indefinitely as it provides the Smart911 module, a chat feature that is used heavily, RapidSOS location accuracy on telephone calls, facilities module and industry innovation in rolling out video streaming to 911 call centers.

Denver911 has increased the number of Rave 911 Backup licenses from 12 to 22 and increased the number of Rave 911 Annual licenses from 23 to 40. There is also a contingency for growth as Denver911 estimates a growth of positions throughout the life of the contract. These items along with the extended term are the reason for the increase of the contract amount.

For this software application, the contract duration will exceed Executive Order 8's recommendation of rebidding every three to five years. Per Executive Order 8: "Agencies should limit the duration of contracts to three to five years at which time a new solicitation should be initiated absent special circumstances." The special circumstances that would provide for a justification to deviate from this policy are as follows:

- Situations where standardization of equipment or continuity of service is required;

- Situations where competition does not exist;
- Situations where economic factors make it unfavorable for the city to re-bid a contract.
