A resolution approving a proposed Amendatory Agreement between the City and County of Denver and Perkins & Will, Inc. to add compensation and a new end date for additional engineering design professional services for the Green Valley Ranch Recreation Center Pool expansion.

Amends a contract with Perkins + Will, Inc. by adding \$187,165 for a new total of \$1,279,399, six months for a new end date of 6-30-23 for additional engineering design professional services for the Green Valley Ranch Recreation Center Pool expansion, including a public participation plan, program verification and development, schematic design, design development, construction documents, and construction administration, as part of the Elevate Denver Bond Program located at 4890 Argonne Way, in Council District 11 (201950351-01). The last regularly scheduled Council meeting within the 30-day review period is on 3-16-20. The Committee approved filing this item at its meeting on 1-28-20.

Affected Council District(s) or citywide? Council District 11

Contract Control Number: 201950351-01

Vendor/Contractor Name (including any "DBA"): Perkins + Will, Inc.

Type and Scope of services to be performed:

Original agreement includes design services for the Green Valley Ranch Recreation Center Pool Expansion at 4890 Argonne Way, Denver, CO 80249. Design services include public participation plan, program verification & development, schematic design, design development, construction documents, and construction administration. The pool expansion includes the addition of a natatorium, gymnasium, support facilities, parking modifications and other necessary improvements.

Amendment to add \$187,462.00 in total capacity, 6 months to contract term and additional scope. Breakdown in capacity addition is as follows: envelope consultant (\$24,475.00), commissioning (\$62,690.00) and additional services (\$100,000.00).

The project is now requesting to add additional components to help achieve LEED certification, such as further commissioning and additional services, to remain flexible in the evolving scope required to attain LEED certification. As with all LEED projects, until the scope is fully vetted by the design team, the exact LEED points cannot be definitively determined. Finally, and most importantly, this project includes a robust public outreach process to help define scope elements. With the public's input, scope elements are being refined and are now known, which enables us to hone in on LEED credits that are most applicable to the project, and those that can be obtained in the most cost-effective and efficient manner.
