### **Executive Summary with Rationale and Impact:**

*Detailed description of the item and why we are doing it. This can be a separate attachment.*

The proposed ordinance would allow the department to expedite the execution of annual infrastructure contracts by having city council review and approve the annual program once at the beginning of the year based on annual appropriations. This ordinance action and approval has been requested and granted each year since 2012. This action expedites all routine infrastructure, maintenance and repair construction agreements to enable the department to begin these construction activities earlier in the year.
