Supplemental Appropriations from General Fund Contingency:

#### **Risk Management Fund**

The Risk Management Special Revenue Fund pays deductibles for various insurance programs and also pays total replacement costs where the City is self-insured, such as City-owned vehicles involved in auto accidents. The revenue for this fund has come from insurance reimbursements, General Fund transfers and subrogation claims.

The average annual expenditures for the fund have been approximately \$780,000. However; in 2019 the expenditures totaled \$2,250,000 primarily as a result of an increase in property insurance deductibles and replacement of large vehicles.

Expenditures due in 2019 exceeded previous year average expenditures due to an increase in property insurance deductibles (general deductible and special hail deductible), as well as an increase in annual severe storms causing damage to City buildings (hail and wind), the total loss of Public Works large vehicles, and building damage due to fire. Total insurable losses the past 3 years have been: 2017 - \$4,130,689; 2018 - \$1,866,210; and 2019 - \$1,003,135. During this time, the City's deductible for hail losses went from \$100,000 per occurrence to \$500,000 per building (with a \$1 million deductible limit).

As a result, the projected cash balance of the Risk Management Fund will not be sufficient to fund \$1.4 million in replacement of totaled police vehicles to be paid from the Risk Management Fund and cover the average cost of annual property damage.

When the revenue from insurance reimbursements and subrogation claims have not covered the obligations of this special revenue fund, the General Fund has covered the variance.
