Type and Scope of services to be performed:

This resolution request is to approve an Energy Performance Agreement for services related to the purchase of energy conservation measure implementation in 23 city buildings throughout the city. Energy Performance Agreements are a strategy to reduce energy use in existing buildings per the Strategic Energy Plan for City and County of Denver Municipal Facilities 100% Renewable Electricity Goal. The strategy prioritizes large buildings with high energy-use intensity (EUI). As outlined in the Strategic Energy Plan for said goal, McKinstry Essention, LLC performed an Investment Grade Audit under contract 201952928-00 resulting in a final report dated August 12, 2021. Energy Conservation Measure recommendations were reviewed by the Denver Energy Office and building stakeholders and a final list of Energy Conservation Measures for implementation was agreed upon by both parties. The equipment will be purchased through a companion capital lease agreement, payments for which will be made from utility savings. Additional funding to support the direct purchase of equipment and required professional services will be from the Climate Protection Fund and Annual Capital Improvement Program.

This request seeks approval for the expenditure of \$2,346,783 for professional services. The companion agreements include \$13,834,597 in Financed Equipment and \$735,094 in Direct Purchase of Equipment through purchase order PO-00107101, amounting to a total project cost of \$16,916,474.
