Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

The Botanic Gardens requests authorization to purchase a vehicle, as it exceeds the \$50,000 threshold requiring City Council approval. The Botanic Gardens has requested preliminary pricing through CCD Fleet Management and has sufficient funds available in the Botanical Gardens Fund, 15803/7027100, to support the vehicle purchase. The vehicle is needed to support the DBG research team doing field work that involves the team travelling 200-300 miles of highway and then some off / back road work to get to remote areas in the mountains and the plains. The terrain has proven to be damaging to our current vehicles. Procuring a vehicle that is made for this type of travel would preserve our other vehicles as well as being safer for staff.
