Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

By Charter, certain appointed officers named in the Charter must have their salaries set by ordinance within a pay range approved by the Career Service Board. Those 11 Appointed Charter Officers are: Manager of Community Planning & Development, Manager of Aviation, City Attorney, Manager of Safety, Manager of Transportation and Infrastructure, Manager of Human Services, Manager of Parks and Recreation, Manager of General Services, Manager of Finance, Manager of Public Health and Environment and Director of Excise and License. While all other categories of employees have been eligible for pay increases, these Charter positions have not received a salary adjustment of any kind for 6 years, with the exception of Director of Excise and License, which was adjusted in 2017 to reflect additional scope of duties around marijuana policy. These positions are not eligible to receive annual merit increases.

Based on a pay study conducted by the Office of Human Resources, this proposal adjusts the salaries for these positions by moving them to market median. The proposed increase represents a cumulative total of \$309,838, which departments would absorb into their 2022 budgets. Increases would be retroactive to January 1 for simplified accounting purposes.

Adjustments to pay allow the City to remain competitive in recruitment and retention. These proposed adjustments will also allow the next administration to be better positioned to immediately recruit high level talent to fill these key appointed positions. They will also help to avoid increasing compression with subordinates and continued misalignment with salaries of staff under the Executive Director
