Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

In April of this year, CPD committed to monitor and report out on site development plan projects submitted in advance of the Expanding Housing Affordability initiative effective July 1, 2022. We are continuing to do that work and have found that projects that require a building permit that are not subject to a site development plan are being impacted by our backlogs. These projects are primarily permits for single-family/duplex residential projects that were submitted, accepted for review and paid their plan review fees prior to June 30, 2022, but due to the amount of time it is taking our staff to complete reviews, will not meet the December 31, 2022, date contained in the ordinance for building permit issuance.

Because of this, CPD requests an ordinance to amend Ordinance 20220426 to change the approved by date in Section 4(b)(5) from December 31, 2022, to June 16, 2023. This applies only to projects that require a building permit but not a site development plan.
