Contract Control Number: HOST-202265494

Vendor/Contractor Name (including any "DBA"): Archway Montview Manor LLC

Type and Scope of services to be performed:

Archway Montview Manor LLC is acquiring Montview Manor, a 13-story building consisting of 88 rental units in a naturally occurring senior affordable housing community in the South City Park neighborhood. Montview Manor provides current residents with access to opportunities and many amenities, sitting half a block from City Park, the #20 bus line, and a block and a half from the #15 bus line on Colfax. The building was constructed in 1962 with concrete and steel construction.

Archway is seeking \$1 million in funding from HOST for acquisition of the Montview Manor building and accompanying rehabilitation, which will include an American Rescue Plan Act (ARPA) grant. Montview Manor serves seniors with a range of incomes from 30% AMI to over 80% AMI. Currently, 25% of the units are occupied by residents at or below 30% AMI rents and 75% of units are at 60% AMI rents or below. Per the seller's requirements, Archway is required to prevent displacement of any current residents.

Scope of work:

The majority of funds will be used for acquisition of the existing building, and while some of the units have recently received upgrades including new appliances, windows, flooring, and plumbing fixtures, the remaining units are in need of the same upgrades. Archway intends to assess and update units as needed upon turnover. The rehab scope includes all immediate short-term needs identified in the Capital Needs Assessments which largely include work on the exterior of the building as well as other common area and building system components. As an existing building there is no design component to the project. The building currently has many low-flow toilets in the units and LED light fixtures are being installed when units are turned over and are updated. Additionally, many of the units received new sliding glass doors and windows within the past five years. Archway is committed to operating energy efficient buildings and is exploring energy saving opportunities at Montview Manor. The Phase I Environmental Site Assessment did not identify any Recognized Environmental Conditions (REC), Controlled RECs, or Historical RECs.
