Executive Summary

As Denver recovers from the economic impacts of the Covid-19 pandemic, small businesses in historically under-resourced communities continue to face significant barriers. The Neighborhood Activation Program (NAP) seeks to promote equitable recovery by activating NEST and Denver Neighborhood Recovery business corridors through events and beautification projects that drives foot traffic, and encourage people to eat/shop locally, while celebrating the uniqueness of each community. Prioritizing support for communities disproportionately impacted by the pandemic furthers the City's commitment to centering equity within recovery efforts.

The purpose of this contract amendment is to continue with **NEWSED** as the program administrator of **\$3,150,000** Neighborhood Activation Program through the Denver Office of Economic Development & Opportunity's (DEDO) Division of Neighborhood Equity and Stabilization. These funds will be provided to the program administrator to be utilized for Covid-19 neighborhood and small business support and recovery.

- If funds are not fully spent after all funding rounds have been completed, NEWSED must return all unspent funds to DEDO before the contract expiration date.
- Provide local, state, and federal compliance and reporting technical assistance for awardees as required.
- Collaboration and communication with DEDO staff for methodology using a project working document.

Metrics:
