Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

Conversion therapy - sometimes referred to as "reparative therapy," "ex-gay therapy," or "sexual orientation change efforts" includes a range of dangerous & discredited practices aimed at changing a person's sexual orientation or suppressing a person's gender identity.

These harmful practices are based on the false claim that being lesbian, gay, bisexual, transgender or queer is a mental illness that should be cured. Every mainstream mental health & medical professional association in the country has rejected this view as scientifically invalid.
