Executive Summary with Rationale and Impact:

Detailed description of the item and why we are doing it. This can be a separate attachment.

This ordinance establishes a regulatory structure that creates an event-by-event approval system to allow for alcohol consumption in areas within the National Western Center. The ordinance defines how and where patrons may purchase and carry alcoholic beverages within

the National Western Center. This will allow the National Western Center to operate in alignment with the community's goals for the future by allowing multiple concessionaires to operate at the campus and give patrons the flexibility to move within a secured premise during the events such as the Stock Show, in addition to other future events.
