Contract Request Template (Contracts; IGAs; Leases)

Date Submitted: 8-30-21

Requesting Agency: Department of Public Health and Environment
Division:

Subject Matter Expert Name:

Name: Will Fenton & Laine Cidlowski
Email: Laine.Cidlowski@denvergov.org

Item Title & Description:

(Do not delete the following instructions)

*These appear on the Council meeting agenda. Initially, the requesting agency will enter a 2-3 sentence description. Upon bill filling, the City Attorney's Office should enter the title above the description (the title should be in **bold** font).*

*Both the title and description must be entered between the red "title" and "body" below. Do **not** at any time delete the red "title" or "body" markers from this template.*

A bill for an ordinance approving a proposed Third Amendatory Agreement between the City and County of Denver and Tri-County Health Department, to increase equitable access to healthy, affordable foods.

Amends an Intergovernmental agreement with Tri-County Health Department by adding \$198,000 for a new total \$785,310 and one year for a new end date of 6-30-22 for collaborative assistance to continue building food systems and neighborhood environments to increase equitable access to healthy, affordable foods as part of the Food In Communities (FIC) program, citywide (202055654; 202160332). The last regularly scheduled Council meeting within the 30-day review period is on 11-22-21. The Committee approved filing this item at its meeting on 9-8-21.

Affected Council District(s) or citywide? Citywide

Contract Control Number: 202055654; 202160332

Vendor/Contractor Name (including any "DBA"): Tri-County Health Department

Type and Scope of services to be performed:

Over the last three years of the Food in Communities grant, Denver Department of Public Health & Environment has been collaborating with the local public health agencies Jefferson County Public Health and TriCounty Health Department, both of which have food system teams. This partnership has been developed to address Denver community priorities related to food access and building out complete neighborhood food environments.

When Denver residents are accessing food, they are not stopping at the City limits/county line. Therefore, in order to provide a more comprehensive approach to 1) increasing access to nutritious, affordable and culturally important foods for Denver residents and 2) creating “complete neighborhood food environments” (see Denver Food Vision 2030), Denver needs to look beyond our borders and partner with local governments, local public health agencies, and food access organizations to create a regional food system that is more connected, efficient, and responsive to resident needs and priorities. Food access organizations may include the following sectors: food production, processing, distribution, retail, education, waste and redistribution.

Some of our accomplishments to date that have benefited Denver include: 1. Informing Denver’s Sustainable Food Policy Council about policy considerations related to regional food system infrastructure 2. Collaborating with GoFarm and Eaton Senior Resource Center, both of which are located in Jeffco, to deliver produce and prepared meals to Denver’s Villa Park neighborhood. Building out a mobile market / farm stand concept with Sprout City Farms (some of their farmland is in Jeffco). This concept will serve Denver residents by increasing access to local fresh foods at the neighborhood level 4. The Food in Communities Sheridan/W. Colfax and East Colfax/NW Aurora Community Coalitions have informed the quality of life / food strategies that will be incorporated Denver’s neighborhood plans - East Neighborhood Plan and the West Area Neighborhood Plan. 5. Leveraging funding, food and other resources (e.g., PPE, supplies, boxes) during COVID to increase access to emergency food assistance for Denver residents.

The funding source is Colorado Department of Public Health & Environment’s Cancer Cardiovascular Pulmonary Disease (CCPD) grant program. This is a reimbursable grant mechanism. Denver is the fiscal agent for these dollars. Thus the need for subcontracts with JCPH and TCHD.

Contract amendment with Jefferson County Public Health for \$191,643 (total \$566,653.64) and extending the contract for one year (through June 30, 2021) to continue building food systems and neighborhood environments to increase equitable access to healthy, affordable foods; also known as Food In Communities (FIC).

Location (if applicable):

WBE/MBE/DBE goals that were applied, if applicable (construction, design, Airport concession contracts):

Are WBE/MBE/DBE goals met (if applicable)?

Is the contract new/a renewal/extension or amendment?

Was this contractor selected by competitive process or sole source?

For New contracts

Term of initial contract:

Options for Renewal:

How many renewals (i.e. up to 2 renewals)?

Term of any renewals (i.e. 1 year each):

Cost of initial contract term:

Cost of any renewals:

Total contract value council is approving if all renewals exercised:

For Amendments/Renewals Extensions:

Is this a change to cost/pricing; length of term; terms unrelated to time or price (List all that apply)?

If length changing

What was the length of the term of the original contract?

7/1/18-6/30/21

What is the length of the extension/renewal?

1 year

What is the revised total term of the contract?

7/1/18-6/30/22

If cost changing

What was the original value of the entire contract prior to this proposed change?

\$587,310

What is the value of the proposed change?

\$198,000

What is the new/revised total value including change?

\$785,310

If terms changing

Describe the change and the reason for it (i.e. compliance with state law, different way of doing business etc.)
