The realignment will tie into the Alameda and Platte River Drive intersection improvements by CDOT that are a part of the Alameda 2.0 project. Sections of the trail between Virginia Ave and W. Bayaud Avenue have a narrow width of 8 feet. These areas within the project limits will be realigned and reconstructed to provide a 12-foot concrete trail and a 4-foot crusher fines side path with 3-foot recovery zones on each side to meet the current standards. CDOT will be constructing the trail improvements under the proposed Alameda bridge over the Platt River. The trail improvements as a part of this project will connect to those completed by CDOT.
